FIRST EDITION.

MIDNIGHT.

FOREIGN NEWS.

New Loan Closed.

COMMUNIST TRIALS.

The National Guard.

PREPARING FOR THE CHOLERA.

Newspaper Stamp Duty.

THE PERSIAN FAMINE.

ENGLAND.

LOAN CLOSED.

LONDON, August 22.—The subcription to the new loan to-day exceeded the whole amount offered. The books will be closed to-morrow instead of Thursday, as has been advertised.

PERSONAL.

LONDON, August, 22.—Sir Edward Thornton, Minister to Washington, has gone to Balmoral to take the oath as a member of her Majesty's Privy Council.

LOAN NECESSARY.

The *Times* says to-day that a further loan was necessary to restore Paris to its condition before the war.

THE FRENCH VISITORS.

The French deputation visiting Ireland have crossed into England, and will visit the city of York. They are enthusiastically received everywhere. Their visit is for the purpose of returning thanks for the aid given the French during the war.

FETE TO BE HELD.

A grand fete is to be held at Sydenham in celebration of the union of Germany.

FOUNDERED AT SEA.

The steamer Prince of Wales, from Hong Kong to Bankok, Siam, foundered at sea. Fifty persons were lost.

MARINE NEWS.

The steamer North American, from Baltimore, arrived at Liverpool. The steamer Austria touched at Moville.

FRANCE.

THE TRIALS.

VERSAILLES, August 22.—In the court martial to-day members of the Paris fire department deposed positively that the Commune ordered the firing of public and private buildings, and forbade their extinguishing the flames in the Palais Royal.

DISBANDMENT.

The press hotly debate the proposed disbandment of the National Guard. The conservative journals advocate and the radical papers oppose the step. Fears are expressed that its enforcement will meet with opposition in Lyons and elsewhere.

APPOINTED.

PARIS, August 22.—M. Drouyn De L'Huys has been appointed French Ambassador at Vienna.

STAMP DUTY.

VERSAILLES, August 22.—The Budget Committee of the Assembly and Government have agreed upon a substitute for the newspaper stamp duty in the shape of a tax upon paper of twenty francs per kilagramme.

COMPROMISE.

It is reported that a compromise has been made in the matter of the prolongation of Thiers' term of office, under which he is to receive the title of President and have the position until the dissolution of the present Assembly.

ELECTIONS.

Supplementary municipal elections in five important cities will soon be ordered.

ARRIVED.

BREST, August 22.—The steamship Ville De Paris has arrived.

CANADA.

THE EXPECTED BOAT RACE.

ST. JOHNS, N. B., August 21.—The odds in the betting here to-night were two to one on the English crew. The St. Johns men get but little backing even at this odds, and the amount of money staked upon the race thus far is insignificant. The St. Johns crew rowed over the course this morning, and though the men keep silent as to their time, their friends claim that they made six miles in forty minutes. The St. Johns crew pull as high as forty-two strokes to the minute in their practice, but their regular pull is a long stroke of about thirty-nine to the minute. There is but very little excitement about the race, it being considered as good as determined in advance. The race will be postponed from Wednesday if the weather is unfavorable.

STEAMERS ARRIVED.

HALIFAX, August 21.—The Peruvian, from Liverpool, has arrived; also, the City of Halifax, from New Foundland, with sixteen hundred passengers, who are to leave Halifax Saturday next, to attend the aquatic carnival. The new Tyne crew went around the race course this morning.

OFFER ACCEPTED.

The Government has accepted the offer of W. D. O'Brien to build the Prince Edward's Island Railroad for £4,355 per mile.

PREPARING FOR CHOLERA.

MONTREAL, August 22.—The Mayor of this city has ordered the strongest measures regarding the city cleaning, in view of the approach of the cholera. Lime and other disinfectants are supplied gratuitously to the inhabitants.

FINISHED TRAINING.

ST. JOHNS, August 22.—The crews have finished training and are visiting to-day. Both crews are in capital condition and a splen'id race is anticipated. The city is crowded with visitors. There is very little betting, but the odds are still in favor of the Tyne crew.

THE SINGLE SCULL RACE.

HALIFAX, August 22.—The second Tyne crew are very confident and anticipate that the only contest will be between them and the Renforth crew. There are five entries for the single scull race, namely: Renforth and Brown, of the Pryor crew; Coulter of the American crew; Sadler, of the Taylor and Bagnell crew, and Tracy of the Barton crew. This race excites equal attention almost with the four oared match. Brown of the Pryor crew has a good reputation, and it is expected that the contest between him and Renforth will be very close.

SPAIN.

ROYAL VISITOR.

MADRID, August 22.—The Crown Prince Humbert, of Italy, is here, visiting his brother, King Amadeus.

THE BUDGET.

The budget is ready for submission to the Cortes. The expenditures for the year are estimated at 600,000,098 piastres; the revenue at 589,000,000 piastres. The Ministry of Finance anticipate that the deficit will be easily covered, and therefore regard as unnecessary the measures as to the public debt.

CONSULATE GENERAL.

It is announced that a Consulate General will be established in all the Spanish-American Republics.

GERMANY.

CHOLERA SPREADING.

BERLIN, August 21.—The cholera is spreading at Koenigsberg. It has appeared at Danczic. Stettin and the south of Prussia are still full of the disease.

IMPERIAL VISITORS.

HAMBURG, August 22.—The Emperor and Express of Brazil arrived in this city to-day.

CATHOLIC CONGRESS.

MUNICH, August 22.—A committee of conservative Catholics has invited the Catholics of Germany, Austria and Switzerland to the Congress to be held at Munich on the 22d of September.

PERSIA.

THE FAMINE.

LONDON, August 22.—The news from Persia is still contradictory. The *Levante Herald* declares that the famine and pestilence are worse than ever; that there have been 27,000 victims at Ispahau alone; that the crops have been destroyed, and that one-third of the population has been annihilated. The details are said to be heart-sickening.

IRELAND.

RIOTING.

DUBLIN, August 22.—As a band music was passing through the streets of Limerick to-day, followed by a large crowd, a signal was given, on which commenced a stoning. The police where watching the proceedings. The latter immediately rushed upon their assailants, and after some hard fighting succeeded in dispersing them. Several persons were injured and taken to the hospital.

AUSTRIA.

WILL REMAIN.

VIENNA, August 22.—It is semi-officially stated that the Emperor will not at present go back to Galstein, but will meet the Emperor of Germany at the time hereafter to be designated.

RUSSIA.

ST. PETERSBURG, August 22.—The Czar has issued an Imperial Ukase permanently abolishing the privileges formerly extended to the German colonists in Russia.

ITALY.

PRECAUTIONARY MEASURES

ROME, August 22.—The Italian Government has taken most precautionary measures against the cholera.

CHICAGO.

New Importing Route.

CHICAGO, August 22.—The *Tribune* of this morning calls attention to a new phase in the Chicago importing trade, which has been recently developed. This is bringing of goods from Europe by way of Montreal, and landing them at our own wharves without previous overhauling. Several of our heaviest merchants have adopted this channel of traffic, which promises to grow rapidly by reason of its success. A propeller laden with dry goods, which left Liverpool on the 29th of July, arrived in port yesterday, so that in twenty-two days from the time the goods left the European port they will be in the warehouse of the importer. This is much quicker time than can be depended upon in importing via New York, where the goods, besides being subjected to outrageous charges, are usually detained from ten to twelve days in the custom house, in addition to twelve days or more on the ocean, and from three to seven days on rail, with high charges for transportation. This independent mode of importing is working well, and the only fear is, that the New York interest will become so seriously alarmed at the threatened loss by this source that they will offer better inducements for a time, and flatter our merchants into a renewal of their fealty to the old system. What is wanted now is a complete concentration of commercial independence and no taking it back.

SERIOUS INJURY.

John Fitzgerald, a discharged soldier, while standing on the platform of a car on the Rock Island Railroad this morning, in some manner was thrown off and so badly injured that he can scarcely recover. He was on his way to his home in Ohio.

BRIDEWELL INSPECTORS.

The Mayor sent into Council last night for Bridewell Inspector the name of A. E. Bishop, and he was rejected, and then the name of John C. Haines, who was confirmed. The Board is now complete.

FATAL EXPLOSION.

Wm. K. Clark was killed, Charles Ryan mortally wounded, and Henry N. Corrie seriously cut and bruised by the explosion of a cannon at Lawrenceville, Ill., while firing a salute on the 17th inst.

BOGUS TEA COMPANY.

The Empire Tea Company, pretending to do business at 19 La Salle street, Chicago, is pronounced by the Mayor and police officers a bogus concern, and people are advised not to invest.

RUN OVER.

Michael Flatterly, a switchman, was run over in the Michigan Southern depot this morning, and so badly injured that he will probably die. One leg was completely severed from his body.

DIED.

Mrs. Hammond, wife of A. G. Hammond, who shot herself on Sunday morning, died from the effects of her wounds last night. Before her death she expressed much sorrow for the deed.

DEATH BY KEROSENE.

At Osage, Iowa, on Tuesday last, Mrs. Frank B. Hyland was burned to death while attempting to kindle a fire with kerosene.

PERSONAL.

Senator Fenton is in this city.

WILLIAMSPORT.

Particulars of the Late Fire.

WILLIAMSPORT, August 21.—The fire last night was one of the most destructive that ever occurred in this city. The wind caused the fire to spread fearfully, placing it for a time beyond the control of the Fire Department. All the buildings on Black Horse alley, between Mulberry and Third streets, were totally destroyed, including the store of Welbush & Keilman and extensive paper warehouse of Harrison, Gibson & Co. The following buildings, with nearly all their contents, were also destroyed: Isadore Samson, millinery store; James Clark, fancy store and dwelling house; L. S. Bates, grocery and dwelling house; P A. Molte, store and dwelling house; Peter A. Eckerade, livery stable; Graffins & Ely; two dwelling houses owned by William Farley & Co.; two by Jas. Blake; two dwellings of W. R. Vanderbilt, including his own residence; boarding house of Miss Moulder; residences of G. W. Wood and Mrs. Wm. Hepburn; Wm. Colvert, house; Philip Miller, grocery store; W. A. Kinslo. several buildings belonging to Effice Dunn; dwelling house and library of the late Governor Packer; E. P. Barrett's tinware manufactory; A. R. Ditman's dwelling house; C. M. Baker's grocery; George Rotherack's saddlery shop; Mr. Weisler's dwelling house, and the Mulberry M. E. Church was burned so that there was nothing left but the bare walls. Nearly all the furniture and clothing of the dwellings and the goods of the storekeepers were utterly destroyed. Many of the householders lost everything but the clothes they had on. The citizens generally proffered the use of their dwellings to those who had been rendered homeless. The total loss is estimated at two hundred and twenty-five thousand dollars, on which there is an insurance of one hundred and thirty-five thousand dollars.

SAN FRANCISCO.

Railroad Election.

SAN FRANCISCO, August 22.—At the election of the Central Pacific Railroad Company to-day, Leland Standford and the old directors, except Charles Crocker, were re-elected, Robert Robinson taking the place of the latter. It is rumored that Croker has disposed of his entire interest in the road.

TEA SHIPMENTS.

SAN FRANCISCO, August 22.—Eighty car loads, aggregating one million six hundred thousand pounds of fresh teas, were shipped overland within a week. A full cargo by special steamer, due here next week, will go overland to Norcross.

DIFFICULTIES SETTLED.

Brick Pomeroy, General Lagrove and Colonel Scott amicably settled their difficulties, all hands apologizing.

DIED.

M. F. Butler, a pioneer architect in California, a native of Massachusetts, died this morning.

KANSAS.

Terrible Fight.

TOPEKA, August 21.—A week ago, in an election row at Newton, the terminus of the Atchison, Topeka and Santa Fe Railroad, one hundred and thirty miles southwest of Topeka, a Texan was shot and killed by one McCloskey, the Texan being the aggressor. Since that time McCloskey has been appointed a policeman, and there has been a feud between him and the Texans, which culminated in a general fight on Saturday night, in which McCloskey and another Texan were killed and two others mortally and four seriously wounded. There is but little law in that region, and more trouble is anticipated, as the Texan cattle drovers congregate there in great numbers.

INDIANAPOLIS.

The Scientists.

INDIANAPOLIS, IND., August 22.—The Scientific Convention met at ten, President Gray in the chair. The Standing Committee reported fourteen names for membership, making the total of new membership this session one hundred and sixty-four. The Standing Committee also submitted the following ticket for members of the official board for next year, who were elected: President, Prof. J. Lawrence Smith, of Louisville; Vice-President, Prof. Alex. Winchell, of Ann Arbor, Mich.; Permanent Secretary, Prof. Jas. Lovering, of Cambridge, Mass.; General Secretary, Prof. E. S. Morse, of Salem, Mass.; Treasurer, Wm. S. Vaux, of Philadelphia, Pa.; Auditing Committee, Messrs. Eustis and Wheatland, of Mass.

Prof. E. T. Cox announced that arrangements had been made for to-morrow's excursion, the party to pass directly to the Mammoth Cave, instead of stopping on the way at New Albany, as was at first contemplated. The excursion train leaves Indianapolis to-morrow morning at 6:50 o'clock.

Prof. T. Sterry Hunt stated that superficial changes are continually going on in the region of Niagara Falls, gradually opening the outline of the Falls. In view of this fact, he submitted the following resolution, which was adopted:

Resolved, That the important changes going on in the surface geology of Niagara Falls are such that it is highly desirable that a survey of the falls should be made, the old monuments restored, new ones erected and large photographs of the locality be taken, and further, that in pursuance of this plan, the legislature of New York be memorialized to order such a survey to be made.

Dr. Hunt named the following as an appropriate committee on memorializing the New York Legislature: F. A. P. Bernard, Chairman; Charles P. Daly, Prof. Geo. Hally, Prof. James Hall, and Sir. W. E. Logan, of Canada, inasmuch as Canada is interested with the State of New York in the preservation of these monuments.

A resolution was also adopted that a committee of five be appointed to report at next meeting of the Association on the best methods of organizing and conducting State geological surveys and making a publication of the results. Proffessors Swallow, Hall, Newbury, Winchell and Hunt were appointed such committee.

The general session then adjourned to meet in sections.

Section B—Prof. James Hall submitted his remarks on the Catskill red sandstone group, as it occurs on the borders of Pennsylvania, which gave rise to a brief discussion, participated in by Professors Swallow and Cape, Prof. Hall closing.

The President of the Association, Prof. Asa Gray, read a paper forwarded by Mr. Renas Davis, a farmer in New Hampshire entitled "Theory on the Nature of the Difference in the Mental Capacity of High and Low Races of Men." Prof. Gray remarked that it was remarkable that such a paper though somewhat erratic, should originate from such a source. The theory sought to be demonstrated is that all the properties or things we call mind, in contradistinction from matter, exists in plants, hence the greater variety of plants were presented in a person the greater will his mental capacity be. The variety of plants a person may eat in his own life time will have but a small per centage of effect on himself, but it comes by inheritance; the number of ancestors a person has in the last twenty-five or thirty generations, and the variety of food these ancestors have eaten determines his mental capacity. The author sent with his MSS. several well executed and very neat looking drawings in explanation of his ideas of the subject treated.

Professor Morse thought it might as well be claimed that the wearing of a certain kind of clothing would enhance races as well.

Professor Richard Owen and Mr. Ferguson spoke of the baneful influence of the intermarriage of blood relations, and then Professor N. C. Hilgard submitted some remarks on organic identity of albumen and endepleura of seeds. When he had concluded, the next paper in order was by Professor P. K. Hay, on the embarology of ambistama murida of Pager, followed by Prof. Swallow's remarks on the snow line and temperature of Montana, who said: "As our time is nearly exhausted, I will simply state that the snow line, the main range of the Rocky Mountains, appears to rise from a point north of the Pacific Railroad to the central portion of Montana, and then falls to the north, but this snow line appears to fall to the east and to the west of the main range, as shown in the belt, and Bear Paw Mountains on the east, the Bitter Root and the other mountains to the west. But little snow falls in the central valleys of the mountain. In the Deer Lodge not more than two or three inches fell at any one time during the winters of 1868, 1869 and 1870. No reasons yet given seem to be sufficient to account for the high temperature of this portion of the Rocky Mountains. The warm winds from the coast, the high, warm places around these mountains, the numerous hot springs of this region, either single or combined, do not appear sufficient to produce the effects observed.

Then followed papers by Professor Andrews, entitled "Some Observations on the Stratigraphy and Geology of Ohio," and by Professor McCassney a notice of tertiary insects found by F. C. A. Richardson on the Green river, in Wyoming.

Section A—Dr. Jas. G. Rogers read a paper on steam boilers, water and incrustation. Papers were also read by Sterry Hunt on the oil wells of Terre Haute; by Prof. Gergly, on account of a late storm which occurred in Clinton county, Indiana. A number af other papers were also read in this section on various subjects.

The last meeting of the general session was held to-night. A committee of arrangements for the next annual convention, consisting of Profs. J. Lawrence Smith, of Louisville, J. D. Whitney, of California, and C. C. Marsh, of Yale College, was appointed.

The Committee on Resolutions reported resolutions of thanks to the citizens of Indianapolis, the Governor and State officers, the city authorities, the railroad companies, citizens of Terre Haute, Brazil, Knightsville and New Albany, the newspapers, &c., after which the Convention adjourned.

A social reception will be given to the members of the convention to-night by the propietors of the "Daily Journal Company" at the residence of L. W. Hasselman. About two hundred names were registered this evening for the excursion to Mammoth Cave to-morrow.

CINCINNATI.

Personal.

CINCINNATI, August 22.—General John C. Fremont, Colonels W. Morton, President of the Kentucky and Great Eastern Railroad, Judge Collier, of Marietta, and James T Brady, of New York, arrived here to-day on business with reference to the great railroad tunnel under Walnut Hills.

RATIFIED.

The stockholders of the Cincinnati, Hamilton and Dayton Railway, to-day ratified the action of the Directors, leasing the Cincinnati, Richmond and Fort Wayne Railway. Out of fifteen thousand votes, only three hundred were against ratification. Owing to complications caused by the holders of preferred stock in the Cincinnati and Indianopolis Junction Railway, the lease of that road by the Cincinnati, Hamilton and Dayton Railway was not acted upon. At a future meeting this will come up for ratification.

FIRE.

The *Gazette* special says a fire in Winchester, Adams county, Ohio, yesterday, destroyed the Ramsey Hotel, the Masonic building, and Douglas' drug store. The cause was boys throwing turpentine fire-balls into a stable. Loss $20.000

LOUISVILLE.

Fatal Accident.

LOUISVILLE, August 22.—Yesterday a man and boy in a two horse wagon drove on the railroad crossing, two miles south of Columbus, on the Jeffersonville, Madison and Indianapolis Railroad, just before the engine of the northward bound train. The engineer whistled down brakes, but the man with the team was apparently indifferent to danger, and the engine struck the wagon, throwing it to one side of the road and the horses to the other. The man and boy were both killed, the head of one being severed from the body. Both horses were also killed.

—A dispatch from Lexington, Ky., says that Higgins' business block in that city was destroyed by fire on Monday afternoon. Loss $50,000; insured for $35,000.

SECOND EDITION.

FOUR O'CLOCK.

THE CAPITAL.

AMERICAN SEAL LOCKS.

The Corean Difficulty.

INDIAN AFFAIRS

The Weather Report.

WASHINGTON, August 22, 1871.

AMERICAN SEAL LOCKS.

The Secretary of the Treasury has ordered that the locks of the American Seal Lock Company shall, after October first, be used on all bonded routes between New York, Boston and Portland, connecting with Canada. Companies are required to supply themselves with locks when carrying goods under special regulations.

THE COREAN DIFFICULTY.

The following details regarding the recent operations in Corea are condensed from official reports to the Navy Department, by Admiral Rodgers. They are the official negotiations of Minister Lowe, and contain some details not given in the press dispatches from San Francisco. Admiral Rodgers' fleet has returned to China. The Colorado, the flagship, Alaska and Benicia arrived at Chefoo on July 5th, having crossed the Yellow Sea in forty-eight hours. The Monocacy and Palos proceeded to Shanghai, to be docked for repairs. The preliminary negotiations opened by Minister Lowe were well received by the Corean District Magistrate, or Prefect, having jurisdiction in the vicinity of the anchorage. There seems every prospect of a speedy and amicable negotiation of the treaty as soon as communication with the Corean Chief Magistrate would be opened. While the Minister awaited this, objection was offered to a survey of the waters in the vicinity of the anchorage or of the entrance to Salie river. This Admiral Rodgers was proceeding with, when two of our surveying launches, which had been treacherously allowed to come within range, were without warning fired into and two of our seamen wounded. Our exemption from serious loss is only attributed to the bad gunning of the Coreans, and the fact that some of our larger vessels were able to arrive in time to drive the barbarian gunners from their works. This occurred on the 1st of June. Minister Lowe immediately demanded of the Corean official, with whom they were in communication, an explanation of the outrage. On consultation with Admiral Rodgers, it was determined to allow ten days to pass before any movement was made to resent the insult offered our flag, in order to allow the Corean authorities opportunity for a sufficient apology or satisfactory explanation. Notice was meanwhile given by Minister Lowe that if amends were not offered himself and Admiral Rodgers, they should proceed to obtain satisfaction for the wanton attempt to destroy our surveying party.

THE WEATHER.

The rain which prevailed on Monday afternoon in Nebraska and northwards is now confined to Iowa, and the barometer has risen in Minnesota. The area of high pressure which was then advancing upon New England now extends to Michigan and North California, and the low barometer which was on the coast of South Carolina has been apparently hid to the southwest. The temperature has been highest to-day in Tennessee and southwards. Fresh and brisk winds in the northeast and southeast have prevailed along the Atlantic coast. The cloudy and threatening weather has cleared away from the middle and eastern states, but continues with rain from North Carolina to Florida. Telegraphic communication with southern Florida is not yet restored, but it is believed a severe storm must be in progress off its northeastern coast. Smoky and hazy weather continues from Lake Erie and Michigan southward to Alabama and Texas, and the barometer has fallen during the day decidedly from Lake Ontario to Michigan.

Probabilities.—Light local winds are probable for to-night in Illinois and westward, and the area of low barometer, with threatening weather, will be developed over the lower lakes. The rising barometer with easterly winds will probably continue on the middle Atlantic coast. Cloudy and threatening weather will probably continue on Wednesday in the South Atlantic, with increasing cloudiness southwestward to Texas, and a severe storm on the Georgia coast.

MARINE DISASTER.

Admiral Lanman, commanding the South Atlantic fleet, reports that the English steamer Yachebrahe, bound to England, arrived at Bahia on July 26, from Montevideo July 10, having on board Captain Geo. W. Leach, master of the ship Euterpe, from New York, who goes to Falmouth, thence to New York. He says on June 5th, in latitude thirty-six degrees and thirty minutes south, longitude forty-seven west, his ship was reported leaking and in thirty minutes afterward she went down. The officers and crew took to the two boats, the Captain and sixteen men in the larger, and seven men in the smaller boat. After weathering two heavy gales, the large boat made the Rio Grande at Dosul, June 14th, having been for two days and two nights without food or water. The smaller boat had not been heard from, but it is supposed she has been picked up by a passing vessel.

INDIAN AFFAIRS.

Advices from Fort Sill of the 5th state that several chiefs of the Kiowas had come in, bringing part of the mules stolen by them in Texas. Colonel Grierson, commanding at Fort Sill, and Colonel McKenzie, commanding at Fort Richardson, Texas, have for some time been preparing to make a joint movement against the Kiowas, which was probably one cause of their coming in, as they have undoubtedly observed the movements of the troops. Should the Indians fail to restore all the stolen mules, an effort to capture a portion or all of the chiefs engaged in the in the raid into Texas will probably be made.

NEW LOAN IN EUROPE.

Advices have been received here to the effect that the subscriptions to the new loan in Europe largely exceed the allotment for that country, and it is probable that heavy drafts will be made through the banks upon the fifty millions placed in the market in this country. To-morrow the loan will be exhausted.

TO BE PUT IN COMMISSION.

Orders were issued from the Navy Department to-day to put the United States Steamer Iroquois, now at Philadelphia, in commission, and she will sail from there to join our fleet in the East Indias.

GOLD BIDS.

The Secretary of the Treasury has directed the Assistant Treasurer at New York to receive bids for gold on Wednesday of this week instead of Thursday.

THE NEW LOAN.

In addition to the subscription to the new loan from the European sydicate to-day, there were subscriptions amounting to over $500,000 by American Agents.

FREE OF DUTY.

It is officially stated that the exportation of cork from the ports in Marons is free of duty for a term of three months, beginning the 27th of June last.

THE RINDERPEST.

Consul McGowan, at Shanghai, writes to the State Department, warning it against the introduction into this country of the rinderpest from Siberia.

UTAH.

Grasshoppers.

SALT LAKE, August 22.—Grasshoppers in vast numbers are appearing in several of the principal agricultural counties. The deposit of eggs threatens seriously the crops of every kind next season. There is much alarm among the gardeners.

VISITORS.

Several prominent English capitalists arrived yesterday to examine the mines.

NEW YORK.

The President Interviewed—Political—The New Loan—South American Cotton—The Corean Fight—Quarantine Extortions—Strikes—Dangerous Practice—Body Found—The Wyoming—Charged with Mutiny—Editor Injured.

NEW YORK, August 22, 1871.

THE PRESIDENT INTERVIEWED.

President Grant has informed an interviewer at Long Branch that he thinks there is no lack of harmony among the New York Republicans, as the discord which some men try to make always clears up when election time comes; that the Orleans muddle is beyond his fathoming; that the Tammany frauds and Orange riots will defeat the Democratic party of New York, and that if we cannot get from the Coreans the treaty which will protect our sailors there in the future, we won't force the treaty from the Coreans, but will teach them a lesson that will probably protect our sailors just as well.

THE COREAN FIGHT.

The *Evening Post* condemns the war on Corea, and says it hopes this is the last attempt of our government to make a diplomatic attack at the cannon's mouth, and the last time our Christian civilization shall appear in arms before heathens and barbarians to extort from them grants which they have a right to withhold.

A morning paper has the following relative to the Corean trouble: The story of the fight is very simple. On the 10th of June six hundred men landed on the Island of Konghia, and with very little opposition captured a marine redoubt. They then encamped for the night. Next morning they slowly worked their way through a swamp, painfully dragging heavy howitzers through mud a foot deep, until they reached and without resistance took Fort Monocacy. Beyond this the land was broken up into little hills, and it was only with extreme difficulty that the guns were drawn over the ground. At last the Elbow, or, as it is now christened McKee, in honor of the memory of Lieutenant McKee, fort, was gained. The Coreans made, desperate resistance, and displayed cool courage, which is one of the few noble traits of an Oriental driven to bay. But their weapons were almost harmless, and with a rush and cheer the avengers of our murdered countrymen scrambled over the works and almond-eyed barbarians. The barbarians either fled or surrendered. Our death list is in this brief but brilliant engagement comparatively small, and we have the satisfaction of knowing that our men signally showed the spirit and pluck of American blood. But it looks now as if England and Prussia will have to take a hand in this matter, Two Englishmen and one German were seized by the Coreans and carried off into the country. One thing is certain, that if England does not find out what has become of her subjects, Germany will; so that, after all, perhaps, some other nation will finish what Amer ca has commenced.

The following are the conclusions of the report of Admiral Rodgers: We captured and destroyed five forts, those at Point du Coude and Fort McKee being probably among the principal and strongest in the kingdom; fifty flags were taken, including those of the Generalissimo; four hundred and eighy-one pieces of ordnance fell into our hands, besides very many gungals. Two hundred and forty-three dead Coreans were counted in the works. A few prisoners were taken, not over twenty, and most of these wounded. The last were treated with all the attention possible, and finally released. There was a treacherous attack upon our people and an insult to our people redressed. It was deemed desirable to hold the position, as our purpose was not to enter upon extended operations, and on account of the exceeding danger and difficulty in holding vessels in position exposed to furious and uncertain currents in the river. It was deemed best to withdraw the entire force upon the following morning, the 12th of June. It gives me the greatest satisfaction to say that in this expedition our officers and men encountered difficulties which were surmounted only by the most arduous labor, and defeated a determined enemy, in a desperate fight, with a courage most admirable. The victory is one of which the navy may well feel proud.

CHARGED WITH MUTINY.

Allen F. Parker, John Nevill, William F. Long and James Walters, seamen on board the Nevada, recently arrived at this port, were brought before Commissioner Davenport to-day to answer a charge of mutiny. The case was adjourned until Friday. Parker shipped as second mate, and the prisoner was reduced by the Captain Lunt to the grade of a common seaman. Sanderson, who was made second mate, took every opportunity to abuse Parker, who, becoming exasperated at the cruel treatment, knocked the mate down. On the following morning Captain Lunt was putting Parker in irons, when several of the crew approached the Captain and interceeded for Parker. They said they had witnessed the whole affair, and Parker was not to blame. At this the captain and mate became enraged, and drawing revolvers, began indiscriminate firing among the crew. James Hill, seaman, was instantly killed and James Walters seriously wounded in the side. A ball passed through his body.

THE ITALIAN CELEBRATION.

The committee for the forthcoming Italian celebration demonstration received a response to invitations to attend the celebration from the following places: Uniana, Fratellanga and Italisna Societies of Philadelphia, and the branch society at Baltimore, signifying their intention to be present, and the North German Landwehr of New York, who will be represented by a delegation. A letter from Governor Hoffman says official engagements prevent his attendance, and one from Horace Greeley represents full sympathy with the demonstration, but regrets inability to participate. After the procession a picnic will he held at Lultzer's park.

POLITICAL.

The *Tribune* of this morning says that if the Republicans lose the election this fall it will be the work of the faction monopolizing the Federal patronage of our city, who will permit no Republican victory unless it inures to their special advantage. This faction hope to carry the country for the Republicans by charging their adversaries with Tammany affiliations. It declares that the Republican office-holders under Tammany came by their places by a pre-arrangement made when the city charter of 1870 was passed, and that at the time the *Times* gave to that charter its support, and commended the appointees under it.

MUTINY.

A correspondent writing from Shanghai, on the 12th of July, says the crew of the North German bark Nounan, consisting of Malays, Chinamen and Japanese, bound from Tien-Tsin Keelung, mutinied on the 18th of June, burned the ship, murdered the mate and attempted to do the same to the captain. The attempt on the captain's life did not succeed. Several of the mutineers have been arrested. It seems that the ringleaders are three Malays and Chinaman, who ran away from the ship at Tien-Tsin, but were caught and reshipped.

IMMENSE DEMONSTRATION.

There was an immense demonstration at Lion Park to-day and this evening in honor of Hon. M. S. Brennan, Sheriff. Fifteen thousand persons were present during the day and evening. At night the Park was ablaze with fireworks, calcium lights and magic lanterns. Sheriff Brennan was present during the evening. The festivities were kept up till after midnight. The utmost order and good feelings prevailed throughout.

QUARANTINE EXTORTIONS.

The quarantine extortions are still the subject of comment in commercial circles, and it is said that the Government will be called upon to remedy the abuses by quarantine officials upon passengers and goods. Many leading merchants are talking of having their ships' land at convenient ports in New Jersey, and transport their goods by rail to New York.

THE NEW LOAN.

A London dispatch to Jay Cooke & Co. says: The subscription for the new loan to-day at noon was $50,000,000. Information was received by cable on Wall street saying that it is probable that $100,000,000 will be taken in all to-day.

STRIKES.

The bricklayers having succeeded in getting an advance of fifty cents per day on their wages, the hod carriers attempted to get theirs increased from $2,75 to $3,00 but failed, and resumed work. Several contractors have expressed a determination to employ hereafter no more union men, and have sent to other places for new hands.

DANGEROUS PRACTICE.

When the Plymouth Rock was passing this evening a shell was fired from a rifle gun by the artillery officers in the Staten Island fort, which exploded near the steamer. There was great excitement among the passengers for a moment. The affair has caused much comment in the city. An investigation has been demaned.

SETTLED.

The widow of a fireman named Williams, killed by the explosion of the tug Starbuck, is said to have taken fifty dollars in settlement of her claim against the company, and it is stated that an agreement was effected through the influence of a coroner. An investigation is promised.

BODY FOUND.

The body of a man perfectly naked was this morning found floating in the East River. The corps bore evidence that the man was brutally murdered, but no clue to the crime has been discovered.

MANDAMUS GRANTED.

Judge Sutherland to-day granted a mandamus against Controller Connelly, in the suit of J. B. Cornell against the city, to compel the paymant for work done on the new court house.

QUARANTINE BUILDINGS.

The Quarantine Commissioners have appropriated twenty-five thousand dollars for the erection of extra buildings for the reception of one thousand persons coming from cholera ports.

SOUTH AMERICAN COTTON.

The peculiarity of yesterday's movements at the Cotton Exchange was the sale of eight hundred and eighty bales of South American cotton, ordinary, on private terms.

EDITOR INJURED.

Rev. Dr. Eggleston, editor of the *Hearth and Home*, received such severe injuries to his right hand yesterday as to prevent the use of a pen for a month to come.

THE WYOMING.

The Wyoming hails from Perth Amboy, and was on her way from this city to Providence, She is from three to four hundred tons burden.

THE PRESIDENT.

The President has made a visit to Ocean Grove, New Jersey, near Long Branch.

SAFE

The crew of the sunken steamer Wyoming, are safe.

ST. LOUIS.

Brilliant Meteor.

ST. LOUIS, August 22.—A brilliant meteor was observed in the southern sky between nine and ten o'clock last Sunday night. It seemed to shoot off the milky way and passed in a Western direction.

NATIONAL EDUCATIONAL CONVENTION.

The eleventh annual meeting of the National Educational Convention took place at the Polytechnic Institute to-day. A great number of delegates were present from different sections of the country, the large hall being entirely filled. President Spinkard called the convention to order, and after a few general remarks, introduced Governor Brown, who delivered an address, most cordially welcoming the delegates to St. Louis, the great focal point of educational labor in the West.

The Governor gave a rapid sketch of what has been done for education in this State, and then touched upon some of the phases of the system as generally taught in this country. He was something of a skeptic as to the general dogma that schooling in its present accepted phraseology of popular education was the foundation of all the virtue and morality of the community. He thought the value of education to society much misstated. When thus presented, he said, education as an aid to social life is chiefly serviceable in the first instance as furnishing better facilities for the protection and the provision for one's self and family in the present social condition and second, for the larger comprehensiveness it inculcates of interests and conventional dependencies that justify self sacrifice in sustaining the social order. It is a very customary declaration to pronounce that education is the great safeguard of Republics against the decay of virtue and the reign of immorality, yet the facts scarcely bear out the proposition. The highest civilization, both ancient and modern, has sometimes been the most flagitious. Now-a-days, certainly your prime rascals are educated rascals, and it is at best doubtful whether education in itself, as now engineered and confined morally to the acquisition of knowledge, has any tendency to mitigate the vicious elements of human nature further than to change the disposition and dispose of crime. This is not alleged, be it understood, of moral culture or religious instruction, but simply of the education of the intellect. He would not enter into any analytical discussion of the problem, but said he believed the best remedy for disease would be found, apart from moral and religious training elsewhere, in teaching the actual compensations of nature in taking the criminal code to the schools and collating the action with the retribution, in the demonstration of virtue as its own best reward; not the axiom, but by illustration, and in showing forth by suitable methods that wrong is ever miscalculation, and therefore foreign to the first law of education. Have you, he said, any text books of crime and misdemeanor in your schools? Do your young men grow up knowing what obtaining money under false pretense means? Are your lessons of the penitentiary and reformatory ever applied in the school room? And yet whilst forcing the faculties of youth to there highest acuteness, you would leave them unguarded amid sordid greed for gain and unchooled in the principles of honor and integrity. The object of all education is to form and develop a perfect life. Then it is evident that it must touch life—the life of the present, not of the past—on all sides, and to that end there will not be vast changes in what is taught at our schools, no less than in the manner it is taught. He then referred to the changes which have been made in late years in the high schools and universities by the introduction of physical and social sciences, supplanting, to a large extent, at least in primary instruction, what he called the "dead beats" of language, ordinary history and the philosophy of words and phrases. He then laid down the following as what is specially needed at the present time: The cultivation of the powers of observation and consequent thought in our youth; the assimilation of the knowledge that is in books, by constant conversation with the world around, and the practical illustrations thereby afforded; the recognition of a more natural growing faculty, that shall adapt education to the impulse, enjoyment and capacity of the child, and all this in place of the parrot like recitation of Chinese memorizing, till the book cramming and discipline bred of the ease of the master, but was repressive altogether of the human nature of the pupil, is what this age demands.

THE CITY'S RAILROAD STOCK.

Eighty-five thousand dollars is the price at which the city's stock in the North Missouri Railroad Company was sold. It seems not improbable that the county's stock will be sold to the same parties for the same sum.

TENNESSEE.

Destructive Fire.

NASHVILLE, August 22.—A special to the *Republican Banner* from Pulaski states that a fire broke out in that place at seven o'clock this morning in the machine shop of Patterson & Connel, below the northeast corner of the public square. The wind was high at the time, and in a short time the whole block of buildings in that locality was in flames. Having no engines and small water facilities, it was impossible to arrest the progress of the fire. The machine shop, family grocery and dwelling house of George McGrew, dwelling house of E. L. Williamson, livery stable and store of Rainey & Voros, livery stable of J. H. Jackson, and grocery of T. J. Choate & B. Harris were totally destroyed, and but few of the contents were saved. Several kegs of powder exploded in Choate & Harris' store, but fortunately injured no one. The stables saved their horses. The fire was accidental—from a pipe. The loss is very heavy.

COLUMBUS.

The Buffenbarger Case.

COLUMBUS, August 22.—In the Buffenbarger case, to-day, nothing of importance was brought out. The cross-examination of Prof. Wormley was concluded. Mr. Sprague, who was present when Buffenbarger's remains were exhumed, was next called. He said that everything about the grave indicated that he had never been disturbed. He procurred the jars in which the organs were brought to Prof. Wormly. He recognized the features of Peter Buffenbarger when the lid of the coffin was removed. He noticed the appearance of the lungs at the grave. The were of a dark pinkish color, considerably collapsed. The walls of the abdomen had the appearance of being parboiled. It did not occur to him while performing the operation to secure the orifices by ligature. The undertaker was examined and also two other men, as to the identity of the remains. There were about seventy-five ladies present during the examination to-day.

POLITICAL.

George H. Pendleton made his first speech of the campaign at Loveland to-day, which was chiefly devoted to a review of speeches of Morton, Sherman and Garfield. He paid a glowing tribute to the memory of Mr. Vallandigham.

BRIEF TELEGRAMS.

—Samuel Butler, residing at 363 Barrone street, New Orleans, suicided yesterday morning by shooting himself through the head.

—The managers of the Tennessee State fair have determined to give $2,500 in premiums for trotting contests at the fall fair next October.

—Reports from the richest cotton fields of Alabama and Mississippi, say that the army worm appeared in greater numbers than ever before. The boll worm is also reported in many counties.

—The Lowell and Framingham Railroad was formally opened for travel yesterday. The last spike (one of silver) was driven by Superintendent H. A. Blood The road is twenty-six miles long, and has been built in nine months.

—The annual shooting festival of the German Rifle Clubs of Connecticut was commenced at Hartford yesterday. Besides the State corps, there are the companies of "York," "Boston" and "Providence," and delegations from other cities. The target shooting will be continued to-day.

—The West Jersey (N J.) *Press* of yesterday contains Edward Bittle's withdrawal as a candidate for Governor of New Jersey, alleging that the success of the Republican party is above personal considerations. James M. Scovel is now the only candidate from the south of New Jersey in the field.

—The Grand Lodge of Odd Fellows of the State of New York assembled at Utica yesterday and opened in due form. A. F. Morse, of Berlin, Prussia, was presented and received by the Grand Master. He made a gratifying report of the work done in Prussia. He has recently established six lodges and one encampment.

—An accident occurred on the Erie Railway, near Utica, N. Y., last night, the palace car Newport jumping the track, breaking its couplings, and falling down a bank fifteen feet. The strong build of the car prevented the top from breaking in as the car rolled over. No passengers received sufficient injury to prevent the immediate continuance of their journey.

—The smack Ida Mary arrived at Newport yesterday morning with wrecked material, including part of a pilot house with the word "Wyoming" painted on it, an extension table, life preserver, &c., from the wreck of a steamer sunk about three miles off the shore. Two of the mastheads are out of water. She appears to have been blown up by powder or steam.

—A trunk filled with good clothing and containing a lady's reticule and two diamond studs came to the surface of the water near the New Hamburg (N. Y.) drawbridge on Monday Yesterday it was identified as having belonged to Mr. Albert A Gillett, of Buffalo, who was killed in the New Hamburg disaster. There are suspicions that the contents were tampered with after the trunk was found, as several valuable pieces of jewelry are missing.

A PLEASING little variation of religious exercises, not heretofore down in any ritual, is reported from Kansas, St. Lawrence. It was suddenly revealed to the worshiping congregation that a cock-fight was in progress in the meeting house yard. The sacred edifice was emptied in a moment, the ostensible purpose of the evacuators being sternly to stop the combat, which, however, they somewhat failed to do, while the deserted pastor put his head out of the window and ejaculated: "You are all miserable sinners—which whipped?" Well, better a battle of cocks in the yard than a battle of brethren and sisters inside the house—a battle like those which we have not seldom been grieved to record.

"OH, I have roamed in many lands," as the song says, "and allow me to assure you, my dear sir, that Pier, Dannals & Co.'s cream ale is the choicest beverage to be had under the sun—under the sun, sir."—MR. WEGG.

CARBOLIC DISINFECTANT, to keep off contagious diseases, at KEYSER'S, 167 Liberty street.

LOUISVILLE
CEMENT.
The Best--The Cheapest.
The Cement has acquired the reputation as the first in the country in hydraulic strength and uniform reliability.
It is now in general use from the lakes to the Gulf, most of the public works in the West and South being constructed with it.
The mills at Louisville having been enlarged and improved, can supply any demand, and though the Cement has always, for 30 years brought higher prices than competing brands, it is from this time the determination of the manufacturers, in order to largely increase the sale and extend the use of their Cement, to furnish it in the principal markets at prices which make it the most available and economical for all classes of work.
The large capacity of this Cement for taking sand renders it much the cheapest that can be used for buildings of any kind.
At the reduced prices in Pittsburgh its cost is not much above common lime, which makes it unquestionably to the interest of owners and builders that the foundation of every good house should be laid in this Cement.
A large stock of fresh Cement has just been received by barges from Louisville, and is offered at greatly reduced prices by the following dealers:
LAING & McKALLIP, 347 Liberty street.
J. B. CANFIELD, 141 First avenue.
W. W. WALLACE, 319 Liberty street
MWS

7-30 GOLD LOAN
OF THE
Northern Pacific Railroad.
RAPID PROGRESS OF THE WORK.
The building of the Northern Pacific Railroad begun July last,) is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 266 miles westward from Lake Superior trains are running over 130 miles of finished road, and track-laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul & Pacific Road, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 560.
A GOOD INVESTMENT.—Jay Cooke & Co. are now selling, and unhesitatingly recommend as a profitable and perfectly safe investment the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest, (more than 8 per cent. currency) and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the road is completed, on 23,000 ACRES OF LAND to every mile of track, or 500 acres for each $1,000 bond. They are exempt from U. S. Tax; principal and interest are payable in gold; Denominations: Coupons, $100 to $1,000; Registered, $100 to $10,000.
LANDS FOR BONDS.—Northern Pacific 7-30's are at all times receivable at TEN PER CENT. ABOVE PAR, in exchange for the Company's Lands, at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.
SINKING FUND.—The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company. The land grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment accessible to the people which is more PROFITABLE OR SAFE.
EXCHANGING U. S. FIVE-TWENTIES.—The success of the New Government 5 per cent. Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.
OTHER SECURITIES.—All marketable Stocks and Bonds will be received at their highest current prices in exchange for Northern Pacific Seven Thirties. EXPRESS CHARGES on Money or Bonds received, and on Seven-Thirties sent in return will be paid by the Financial Agents. Full information, maps, pamphlets, etc. can be obtained on application at any agency, or from the undersigned. For sale by
JAY COOKE & CO.
Philadelphia, New York, Washington.
Financial Agents Northern Pacific Railroad Co.
Also by the following named Banks and Bankers of Pittsburgh, viz:

PETROLEUM at Antwerp, 48½.

GOLD closed in New York yesterday at 112¼@112⅜.

WHAT does our Wood street neighbor now think of the government loan?

CINCINNATI talks of building an Inclined Plane Railway to the summit of Mount Auburn.

THE Louisville *Courier Journal* has at last published an article on "Imbecility." We have long thought that it was especially adapted by nature to be an authority on that subject.

PRESIDENT GRANT will in all probability remain a day or two in our city next month as the guest of the Lincoln Club. He will be accorded a hearty and generous welcome.

THERE is a mild justice tempered with a good deal of mercy connected with the use of the cognomating power by the New York *World*, which was evinced when it spoke of itself as a "Democratic heretic."

THE Cincinnati *Enquirer* wants to have the National debt paid off in a debauched paper currency. We know of few more debauched papers than the *Enquirer*, and we do not believe in making it any more current than can be avoided.

WITH much patience we await the publication by the *Post* of the terse, vigorous and sensible reply to its interrogatories addressed to the *Chronicle* last Saturday regarding the City Hall business, and answered the same afternoon. Come, neighbor, be just and tire not our patience. Let us have the *Chronicle* quoted in your columns.

WITH its usual impudence, the *Post* styles the Young Men's Christian Association as a body of "fanatics." Its religious tolerance is not of the most liberal character, and hence its prejudice against a noble association of gentlemen who go about endeavoring to accomplish good, is to be expected. We only wish our community had more of such "fanatics."

NASHVILLE is finding new life. A congress of delegates from the various Agricultural and Mechanical Associations of the United States has been called to meet in that city on the 3d day of October next, and in conjunction therewith will be held a national exposition of manufactures. Our city should be represented fairly in both the Congress and Exposition.

IT is one of the singular precedents established in the settlement of the Franco-Prussian war, that the rolling stock of railroads, captured by the conquerors, has been decided to be no contraband articles, and to France is made the restoration of hundreds of cars and locomotives. As we take it, railway engines and cars are the most powerful auxilieries that a nation could have in the conduct of a war.

WITH its usual decency, the *Post* misquotes and garbles our remarks bearing on the Dilworth-License question. It discovers that its barefaced falsehoods against the Republican candidate for the Commissionership do not take well with the Germans or any other class, and hence resorts to its old and dirty practice of misrepresenting the language and position of its contemporaries. Drowning men catch at straws.

THE Democracy of Ohio are certainly in a bad fix. The telegraph of yesterday morning informed us that McCook, their nominee for Governor, is insane, and will be withdrawn. Ewing refuses to take his place, as the ticket nominated is pledged to the "new departure," and he belongs to those who said the war was a failure. Can it be that the "new departure" is the cause of McCook's insanity. Verily, the Democracy of Ohio are in a bad fix.

YESTERDAY there assembled in St. Louis the National Educational Association, made up of representatives from all parts of the land. Primarily the object of the gathering is to advance the cause of free and popular education. The views of the most distinguished educators of the land will be interchanged, and no doubt great good will follow as the fruit of the meeting. The delegates will be made the guests of the teachers and friends of education in St. Louis, and nothing will be left undone to make the occasion one full of pleasant memories to those privileged to participate in it.

NEARLY one hundred of the prominent citizens of Cumberland, Md., arrived in the city yesterday and in a quiet, unostentatious manner at once proceeded to make a tour through our strongholds of labor, and among our princely wholesale business houses. They came neither to sport nor talk, but simply to "do" Pittsburgh in a practical manner; to learn on what grounds we base our claims to the proud title of the Birmingham of America, and to discover whether their own bright and prosperous city cannot form a business alliance with us that will prove mutually advantageous and beneficial. They will remain in the city over to day, and we hope they may be afforded ample facilities by our people to see our grand old city as it should be seen.

WHO ARE TO GO on the excursion to Baltimore? Shall they be representative citizens or thugs and bummers and pot-house politicians? We have no reason to fear but the Connellsville Railroad authorities will use great care and prudent judgment in the selection of their guests, but will the Council Committee do the same in distributing invitations? We urge the necessity and importance of having our city faithfully represented on the occasion by those who in trade and manufactures contribute to our welfare, and who above all others, should be thrown into contact and acquaintance with the business people of Baltimore, if it be expected that good results to both cities, in a commercial point of view, shall flow from the intended visit? Hence, we urge that the utmost care be exercised in awarding the invitations, and the community will hold the Committee charged with the selection responsible for the style and character of the delegation that will represent Pittsburgh in the Monumental City.

THE NEW YORK *Times* made a brilliant move when it so fearlessly exposed the corruptions of the Democratic party in that city. It did not deal in loose generalities but in specific charges every one of which it drove home with power and force. Its heavy knocks were felt by the opposition from Maine to Georgia. Such an example of fearlessness as it set in dealing with Tammany was a worthy one to be followed by all honest journalists. Now, our good neighbor of the *Post* so thought, and in his zeal precipitated himself upon our City Hall Commissioners and like the *Times* cried out fraud against them. There was this difference, however. In New York there were gross frauds to call for exposure and the *Times* had a very "soft thing" in doing so, and did so most successfully; in Pittsburg no frauds can be discovered, and the *Post* has an "up hill job" in its farcical attempt to ape the *Times*. We are sorry for our contemporary but it must learn that it is not the easiest thing in the world to cook the hare before it is caught.

THE HEALTHIEST CITY.

With a considerable flourish of trumpets the *Press* claims that Philadelphia is the healthiest city in the world, and in defense of its statement makes comparison of mortality statistics selecting therefor a few of the larger cities of the United States, but of course, as is the general rule of that journal, completely ignores Pittsburgh, although citing much smaller places in its table. It is of very little concern to us whether more die in Philadelphia in a given length of time out of a thousand persons than in Pittsburgh, but if there is any credit to be derived from being the healthiest city in the world we want it as it belongs to us rightfully. Here is the table as supplied by the *Press*, with Pittsburgh added, and, if figures do not lie, we think our claims are made good that we enjoy living in the healthiest city of its size and population on the globe:

Cities.	Population.	Deaths.	Deaths to 1,000 persons living.
Boston	250,526	6,098	24.34
New Haven	50,886	1,340	26.33
New York	926,341	27,175	29.33
Philadelphia	674,022	15,317	22.72
Baltimore	283,070	7,262	25.65
Richmond	51,093	1,600	31.31
New Orleans	191,512	6,942	36.24
Pittsburgh	87,000	1,867	21.50

Thus Pittsburgh is shown conclusively to be healthier than any other city in the country. The following additional statistics we take from the *Press*, to show that on the score of healthiness there is no city on the globe to be preferred to this good old smoky town of our own:

The latest report of the Registrar General gives the following results for some of the most important English cities: Birmingham, 23.89; Bradford, 26.49; Hull, 24.41; Newcastle-on-Tyne, 25.57; Leeds, 27.52; Liverpool, 29.92; London, 23.59; Manchester, 32, and Sheffield, 26.59 deaths to a thousand living. Although many of these English towns have a population of much less than that of Philadelphia, the rate of mortality in all the cases cited is greater than ours.

In 1868 the death rate in the whole of the Australian Empire was 29.34, and in the Kingdom of Italy it was 30.45 to the thousand. Of course, in many of the Italian cities like Rome and Naples, the death rates are usually much higher, and at many seasons of the year travellers visit those famous capitals of the Italian peninsula at the risk of their lives. Indeed, it may be said that the towns and cities of the Old World, with their narrow streets, impure water, imperfect drainage, and crowded populations, are the favorite haunts of disease in every shape, so that instead of being centres of civilization they are, in some things, a disgrace to the civilization of the nineteenth century.

No problems of the present time demand more careful investigation than those which relate to the preservation of health in large aggregations of humanity. Cities are growing more rapidly than ever they have done in the past. The counties around Philadelphia stand comparatively still, the rural population increases at the slowest pace, while the city develops with wonderous rapidity.

As cities increase in magnitude it becomes more difficult to preserve the health of the many thousands clustered in the space of a few square miles, and hence it follows that more rigid rules and laws must be established and enforced by the authorities for the preservation of the public health. The public health, like the vestal fire of the olden time, requires perpetual watchfulness on the part of those who are entrusted with the guardianship. "Semper paratus" must be the motto of every Board of Health.

ON WHICH SIDE?

Alexander H. Stephens, ex-Vice-President of the Southern Confedracy, and a Democrat, of course, has notified his northern brethren, formally and emphatically, that if the Democratic party, in their next National convention, shall adopt the doctrine of the New Departure, that is, approve of and accept as law, the 14th and 15th Amendments to the Federal Constitution, he and the southern wing of that party, will not be bound by such action; but on the contrary, will take yet another departure from Democracy, and seek new and congenial fields. This formal notification of the masters, seals the doom of the truculent party. It cannot exist without the South, and the South as usual insists on dictating the policy of the party. The North is powerless; the South is implacable. To yield to the rebel demands, insures the loss of the loyal friends everywhere. To oppose Stephens, and his Southern hotspurs, while it will not add to the strength of the party at the North, will insure their enmity and deadliest hate. To do nothing will prove their indecision, and their imbecility. Truly, "the way of the transgressor is hard."

What then is to be done, is the problem now engaging the earnest attention of the unfortunate Democracy? So far as possible the effort is to be made to appease the factions of both sides. Through the South, the old popular cries of "Radical usurpations," and "down with the nigger," are to be continually resorted to, in order to keep up the necessary enthusiasm. This is to be varied with an occasional midnight illumination, caused by the burning of a school house, where colored children are taught, or a church, where colored people worship. On special occasions, when the enraged demon of treason and rebellion demands a sacrificial immolation, to appease his infernal wrath, the body of some poor freedman will be found suspended to the limb of a tree. The people will be taught that the "Radical usurpations," against which they must fight, have culminated in the passage of the 14th and 15th amendments, to which they must never yield. Democracy, South, will be made to appear the special champion of the "lost cause," and the eternal enemy of "Radical innovations"—a free school and free press.

Not so in the north. A vastly different programme is there laid out. Stephens and Davis are to be denounced, and their Democracy, to be impeached. The people are to be told the Southern wing, will support the national nominees, and platform. The "new departure" is everywhere to be preached, and entire acquiescence in the amendments is to be professed. "Let by gones, be by gones," Democracy will say, we yield to the stern realities of fate. But will the people blindly rush into such a palpable maze of confusion? Will they be hood-winked by such conflicting professors? Will they be willing to trust a party which, having no principles of its own, is willing to play fast and loose, crying out "good Lord—good devil," according to the political atmosphere it finds itself in? We think not. The intelligence of the masses will not be trifled with, in such a way. The voters of our country can read—thanks to our free institutions, and think, and such manifest jugglery will be detected, and condemned. What a glorious contrast to this picture of ignorance, superstition and duplicity, does our party present? In the midst of so much hypocrisy, and infernal though dexterous deceit, our principles stand out like living characters, open in the light of day, and known to all men. No effort is made, as none is needed, to secrete the movements of one part of the body from the other. North, South, East, and West our principles, our intentions, our hopes, our aims are all the same. We have no demons to appease, no midnight assassinations are demanded by our members. We desire peace, prosperity and stern justice to all people. Such thoughts will arise when contemplating the aspect of politics, as presented at present. Does any patriot hesitate to decide on which side his influence should be cast? Is it not plain, that on the one hand, all is peace, law, order, justice, progress; whilst on the other the spirit of treason is still untamed, and hellish fury is only waiting an opportunity to have its chains unloosed? Choose ye.

BALTIMORE IN 1861.

Senator Sumner's Escape.

Col. J. W. Forney, in his last instalment of anecdotes of public men, has the following:

Between December, 1860, and the 19th of April, 1861, was crowded a series of events which, carefully preserved, would have constituted many chapters of absorbing interest. But neither side believed entirely in the absolute certainty of hostilities; few were sufficiently composed to keep a regular diary outside the daily printed reports, and these, at least at the immediate theatre of operations, the nation's capital, were relatively inferior to the full and exact reflections of the doings of the world in the newspapers of these times. Some persons did, perhaps, journalize their experience, but much that entered into the real history of the period can only be rescued from oblivion by utilizing unrecorded memories. As early as December, 1860, I called upon the people of Pennsylvania to put themselves in a condition of armed assistance to the Government. For this letter I was censured as an alarmist. The most sagacious men did not give up the hope of reconciliation. Mr. Lincoln's inaugural, conceived in the best Christian spirit, was easily construed into a prayer for compromise; and one of the most thoughtful speeches of Judge Douglass, in which he contended that the difficulties could be amicably arranged, was inspired by that inaugural. In recurring to my letters of March, 1861, I find myself busily seconding these efforts. The firing upon Sumpter, on the 14th of April, however, dissipated all these expectations, and men began to look for the worst. From that day Baltimore city became an obedient echo of the agitation throughout the South. Lying directly athwart the great highway leading to Washington, it was soon evident that no troops could be sent to the defense of the latter without danger. But even then few persons were willing to admit that the pro-slavery mob of the city would dare to attack the soldiers on their way to the immediate scene of peril. Among these was Charles Sumner, Senator in Congress from Massachusetts, who relates an incident that typifies the prevailing sentiment in Baltimore, and his own characteristic firmness and self-reliance. At noon on the 18th of April, 1861, he bought a ticket at Washington for Baltimore, and arriving there, entered his full name on the books of Barnum's Hotel. Preferring a quiet hour, he crossed the street and ordered an early dinner at Guy's Monument House, always famous for its good fare, and a favorite resort of the celebrities who frequently visited the Monumental City. Dinner over, he called on a New England friend and resident, remained to tea, and returned through a by-street to Barnum's, entering at the side door. In the hall he met a gentleman who seemed much excited by his presence and anxious for his safety. Conscious of his own rectitude, he walked up to the office and demanded the key of his room, to which he was soon followed by the proprietor of the hotel, the late lamented Zenos Barnum, and another gentleman. There he was informed that the fact of his being in the house had obtained publicity, and that a large and angry crowd was outside threatening violence and demanding his life. His answer was that he felt perfectly secure as long as he was under that roof, and that he would hold the proprietors responsible for any outrage that might be attempted upon him. Mr. Barnum did not conceal his apprehensions alike for his great establishment and for the safety of his guest, and under his advice Mr. Sumner consented to remove to a more inaccessable room, where he remained for some time, discussing the situation of the country with his kind-hearted and generous host. He could distinctly hear the threatenings of the surging mob outside, and he felt that nothing was needed but the opportunity to stimulate them to the wildest violence. Baltimore was completely in the hands of reckless and blood-thirsty men. They thought the Government powerless. Freedom of opinion was only tolerated on one side. The newspapers, with the exception of the Baltimore *American*, added fuel to the fire, and Union men were constrained to silence to save person and property. The nation's capital was almost entirely unprotected, and although the North was at last rousing to a full sense of the public peril, as yet no troops had gone forward in response to the call of the Executive. Acting under the advice and the exhortations of Mr. Barnum Mr. Sumner rose early on the morning of the 19th, and in a private carriage crossed the then quiet streets of the city to the Philadelphia station, where he entered the first train eastward, reaching Philadelphia in a few hours. On the way, and I think at Havre-de-Grace, he met the men of the 6th Massachusetts going South, and saw their happy faces and heard their joyous shouts. When he got to Philadelphia he found the streets crowded with people discussing the crisis. To get the exact information, he called at the office of the *Press*, 413 Chestnut street, near Fourth, where he met my business manager, then and now Mr. J. G. L. Brown, and learned for the first time the particulars of the attack upon the 6th Massachusetts on their way through Baltimore. Had he taken the train on the 19th instead of the 18th he would undoubtedly have been among the first victims of the rebellion, and possibly Barnum's Hotel would have fallen before the infuriated fiends who were seeking for objects upon which to wreak their vengeance and their ingratitude.

Railway Accidents.

The late English papers are contending that a large number of railway accidents may be ascribed to the overworking of the "pointsmen," or the men who are placed in charge of the switches. Thus, a very serious and fatal accident at Sheffield, on July 19th, was due to a collision, in consequence of the mistake of the "signal man," who worked regularly for thirteen and a half hours a day, fifteen hours on Saturday, and seventeen hours on every alternate Sunday. His wages were only seventeen shillings, or $4,25 a week, this being about half the earnings of an ordinary artizan. The hours of labor even on ordinary days, it is asserted, are far too long for any man to preserve the alertness, nerve, vigilance and vigor required for the responsible duties of a signal man. It is argued that a not very expert or experienced man, thoroughly worn out and weary for want of rest, will necessarily commit fatal mistakes. In another railroad accident, the train, owing to a mistake in the signal went over into the river. In that case, the pointsman, owing to the neglect of his superiors, had been on duty for sixty-six hours without relief, so that his wife was obliged to be with him to keep him from going to sleep on his post. In another accident, the signal man, who was killed, had been on duty for two days and a night. Another signal man had worked twelve hours continuously, during which time 460 trains had passed, and the switches had to be adjusted 1590 times. The same complaint of overworking is also extended to engine drivers, and cases are known in which drivers and guards are forced to work twenty hours a day.

FOUR million dollars per mile is stated to be the cost of the London underground railway. The engines employed are not, as is generally supposed, specially arranged for the suppression of smoke, &c., in other words, of what is commonly known as the dummy pattern,—but are precisely of the usual form, with the exception of two points. In the first place, they are so arranged that the exhaust may be, at will, turned into the tank in place of the chimney; and in the second place, the furnace may be shut up air-tight at a moment's notice. The plan of working these engines is as follows—the road, it is to be born in mind, not being a continuous tunnel, but a series of alternate tunnels and open cuttings. In the open cutting, the engines are run as on any other road, but as soon as a tunnel is reached the exhaust is turned into the tank, the fire-box shut tight, and the engine ran through by the accumulated heat in the furnace and boiler.

GENERALITIES.

THE Germans in Moscow have purchased a magnificent team of three white Russian horses as a present for prince Bismarck.

THE street car company in New Haven it is said, piously refuses to run street cars on Sunday, because it believes it will not pay.

A NEWARK woman found a burglar under her bed the other night, and hauled him out so as to let her husband jump on him, which he did most effectually.

THE Pall Mall *Gazette* considers it absolutely necessary to hang an apothecary before long, so many persons are killed now-a-days by mistakes in perscriptions.

RUMOR now says that Miss Emily Schaumberg, famous for years as a Philadelphia belle, will certainly make her debut in public opera during the coming season.

WESTERN papers report that Chief-Justice Chase's visit to the Michigan mineral springs was rendered very unpleasant by frequent and violent attacks of fever and ague. He fled to Wisconsin.

THE Lexington *Press* says it has heard of only two negroes and two white men killed in Kentucky on election day, and it adds that all of them were probably accidently killed. The *Press* is a Democratic paper.

SAN FRANCISCO, through the Western Union Telegraph Company's lines and the Atlantic Cable, is now in direct communication with Saigon, and all parts of Cochin China. The tariff is $29,25 from London, and from San Francisco to London $13, making a total of $42,25.

A VERY fashionable custom, or one that promises to be so next winter in New York, is that of ladies holding morning reading classes. They take their sewing with them, and gather together in bevies at some friend's house, where one of the number reads aloud from the book selected.

THE Berlin *Correspondent*, in an account of the German navy, says: Every ship in the German service, even the smallest gun boat, is provided with detailed drawings and sections of every foreign war ship. Its weak points are especially stated and details given as to the spots to be aimed at with most likelihood to disabling the machinery.

A DESCENT from the sublime to the ridiculous may sometimes be effected by the substitution of but a few words. For instance, take the beautiful lines:

"You may break, you may shatter the vase if you will,
But the scent of the roses will hang round it still."
"You may break, you may shatter the vase if you choose to,
But the scent of the roses will hang where it used to."

"WHAT is the wonder, then, if out of the satiety of an animal life, the burgher girl tampers with her character, particularly when no great fuss is made about the loss of it." The above is a description of the kind of people Mr. George Alfred Townsend associated with in Pennsylvania; or rather he says so, feeling bound to malign a State which refuses, at his command, to abandon protection.

Two gentlemen who were sent from San Francisco to Sacramento, by the Mechanics' State Council, to examine into alleged frauds and irregularities in the work on the State Capitol, were on the evening of their arrival set upon and beaten, one in the street and the other in the Capitol. The police subsequently arrested a man who was boasting about the streets that he was one of the assailants and calling attention to his boot as the one which had "put a head on them."

IT is stated as a curious fact that, of 26,200 victims of the yellow fever in Buenos Ayres, during the past season, nine-tenths of the number were men. The disease increased with the changes in the weather, from the exposure of the river mud, by a sudden fall in the river, with the stirring of the beds of filth, etc., all showing its dependence upon other causes than personal contagion. Of 360 grave-diggers, constantly employed, not one died, thus proving that the graveyard was the healthiest place to live in.

NOTWITHSTANDING all that has ever been said about the "claims" of Boston, perhaps nobody ever anticipated that it would ever covet New Jersey's boast of having the largest, sharpest and most vigorous mosquitoes in the Union—or out of it. Yet we read in the *Transcript* that the mosquitoes in Boston this year sting like the piercing of porcupine quills, and that a woman who claimed admission to one of the local hospitals last week, as she had the small-pox, found, after a residence of a few days at the institution, that the irruptions were only mosquito bites.

The great tunnel through the Sierra Nevada is to be five miles long, nineteen feet high, and twenty-one feet wide. Its cost is to be $15,000,000. The contractor for the work, Colonel Von Schmidt, is an engineer of some renown, whose principal works in this country have been the excavation of the famous San Francisco dry dock, blasted in a ledge of solid rock, and the demolition of Blossom Rock, San Francisco Bay, by submarine excavation and blasting. The Sierra tunnel will permit the passage of the Pacific Railroad track and a canal to supply San Francisco with water from Lake Tahoe.

"A MESSAGE from the sea" was picked up at New Bedford, Massachusetts, recently, written from the City of Boston, and preserved in a bottle. The paper was without date or name, and written by a German, the translation running as follows: "Dear Persons—He who finds this bottle, if it possibly makes its way to the land, will please send it to the admiralty in an English harbor. I have thrown similar ones which contain the tidings in different languages. They come from the sinking ship City of Boston. We got, unfortunately, in or among the——[ice, probably] from which no one can be extricated."

A NEW YORK museum proprietor has recently secured two canine curiosities. Both are bipeds, being without fore feet or any portion thereof. It is no work of skillful surgery, as there is an entire absence of shoulderblade or joint. These dogs are remarkably clever in tricks. They walk erect, or lie on the floor in imitation of seals, drawing their heads full down to the shoulders, or where the shoulders should be, and stretching out their hind feet close together, and far behind. They march like soldiers, armed with minature muskets adjusted to their bodies.

ONE night last week, during the burning of a coke pit, on a farm in Hamilton county, Ohio, one of the men, Frank Wolf, employed in watching, fell asleep. post, and was some time during the night bitten by an adder. The intense pain made him almost wild, and his companions, hurrying up to the spot, found the unfortunate man upon the ground, writhing in agony. Being told what had occurred, one of the men hurried off for assistance, but before he could return, the man's neck had swollen to almost the size of his body, and, an hour later, death came to his relief.

THE idea of conveying messages under the sea, says Mr. J. N. Holmes, in a recent article on telegraphy, was first conceived by Sir C. Wheatstone, in the year 1840. For his experiment he chose Swansea Bay, in South Wales, and there, stationed in an open boat, and with the help of a light-house keeper, he practically set in operation the first submarine telegraph cable in the world, consisting merely of a conducting wire insulated with hemp and a resinous compound. From the results of that trial has proceeded the great submarine telegraph system now extending over so large a portion of the globe.

THE whalemen of Monteray Bay, California, went out after a school of porpoises a few days ago, and caught a sea wolf or "short-finned killer." The killers have very peculiar habits. They go in bands of two or three, or more, and prey upon seals and all other species, except the sperm whale. They keep about the head of their victim, seizing it by the lips and tongue, and dragging it under water and retaining it there until dead. They then feast upon the carcase, biting out large pieces of blubber and flesh, which they bring to the surface and devour. Sometimes the "killers" recapture a whale from the whalesmen after it has been lanced.

THE New York *Commercial Advertiser* says: "The stuffed and plush-covered seats of the Philadelphia street cars are said to furnish extraordinary facilities for entomological researches and experiments. Philadelphia has been trying for some time to get ahead of New York, and maybe she thinks she has succeeded now. But she hasn't. Anybody can have them. They are not indigenous, but we defy the street cars of any other city to compete with ours either in the luxuriant supply, or the bewildering variety of their entomological curiosities. Philadelphia may cite a few sporadic cases of the familiar louse or bed bug, but our pampered insectile population is a perpetual presence.

THIS is from the Cleveland *Herald*: "What do you think of Mr. Ewing's financial scheme?" was the question we put to a silver-gray banker. "I'll tell you a story," said he. "Judge T. and Judge R.—one a Republican and the other a Democrat—had been making stump-speeches on the finances. Being warm personal friends, they compared notes afterward. Judge T. entered into an argument on the financial question, but soon got badly mixed up; he struck a snag of his own planting, and did not know how, in the face of his enemy, to retreat. Making a very bold face, he looked Judge R. right in the eye and said, 'Am I not right on the question?' Judge R., evidently as badly confused on a topic that everybody pretends to be master of, but of which nobody knows anything, replied, 'I suppose you are, but you are too d—d deep for me.'" So our banking friend said of Ewing.

ATTEND TO YOUR FEET---- CORNS.

One of the most wonderful preparations which has come into use recently is ROBINSON'S CORN PENCIL, which removes from the feet these troublesome excrescences, and that, too, without any pain. Robinson's Corn Solvent dissolves and disintegrates the corn entirely, leaving the feet as smooth and healthy as if the corn had never been there.

It not only removes corns, but warts and bunions, and indurations of any kind are freely removed. Let any one whose feet are troubled with these pests try it at once, and every particle of indurated matter can be removed from the feet. They are sold at 50 cents each, or by the dozen, at KEYSER'S, 167 Liberty street. Sent by mail for 60 cents.

MEDICAL MISTAKES.

It took the faculty about a thousand years to discover that the best way to cure disease was not to render the patient too weak to contend with it. Within the last twenty years, however, the whole system of medical practice has been changed for the better. In diseases or complaints caused by excessive heat, for instance, the doctors no longer recommend the reduction of the invalid's strength by prostrating medicines. The vast success which has attended the use of Hostetter's Stomach Bitters as a remedy for debility, has given even the most prejudiced members of the old school an insight into the only true and rational theory of cure. Cantharides, calomel, and overpowering doses of opium, are now among the obsoleta nostrums of another age. The lancet, once as much the legitimate weapon of the physician as the sword is of the soldier, is seldom drawn from its case. The principle of life is no longer drained from the veins by the quart, and water-gruel for the strengthless invalid has ceased to be considered an appropriate diet. Vigor is the motto of the rational members of the profession, and they understand, at last, the value of a sterling vegetable tonic. So, also with the people at large; and without consulting medical men at all, they have adopted the bitters as a household remedy, thereby economizing both cash and health.

Note the fact, that Hostetter's Stomach Bitters is sold in bottles only, never in bulk, and that the abortions springing up in various parts of the country, and sometimes offered as substitutes for the great national specific, are all utterly worthless.

(Late Hill & Adams,)
Manufacture highly vitrified Stone Pipe for Sewer and Water purposes, both ring and socket from 1 to 24 inch calibre. Contractors and Plumbers supplied at lowest prices. Wholesale and Retail dealers in Chimney Tops, Flues, Fire Brick, Fire Clay, Tile, &c. Are also
GENERAL AGENTS FOR THE
Johnstown Improved Hydraulic Cement,
This Cement is equal to any cement made in the United States, in many respects better than the Louisville Cement or the Rosendale, and decidedly better in all respects than the Uniontown or Akron Cement. It has a smaller amount of shrinkage, sets gradual, bears as much sand as any cement made, and gets as hard; stands frost well it has all the qualities that hydraulic cement should have. The facilities for getting this cement is greater then all others in this market, less freight and fresher, which is an important matter Having but a short distance to ship we can there fore sell cheaper than any other in the market.

PROPOSED
Amendment to the Constitution of Pennsylvania.

JOINT RESOLUTION
Proposing an amendment to the Constitution of Pennsylvania.

Be it Resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, That the following amendment of the Constitution of this Commonwealth be proposed to the people for their adoption or rejection, pursuant to the provisions of the tenth article thereof, to-wit:

AMENDMENT.

Strike out the sixth Section of the Sixth Article of the Constitution, and insert in lieu thereof the following:

"A State Treasurer shall be chosen by the qualified electors of the State, at such times and for such term of service as shall be prescribed by law."

JAMES H. WEBB,
Speaker of the House of Representatives.
WILLIAM A. WALLACE,
Speaker of the Senate.

Approved the fifteenth day of June, Anno Domini one thousand eight hundred and seventy-one.

JNO. W. GEARY.

Prepared and certified for publication pursuant to the Tenth Article of the Constitution.

F. JORDAN,
Secretary of the Commonwealth.

Finance and Trade.

NEW YORK, August 22, 1871.

Gold dull and weak at 112¼@112⅜. Loans were made as high as one per cent. for use; at the close one-eight was bid for use until to-morrow. Clearances about seventy millions. The clique withdrew about five millions from the market. The Treasury will sell $2,000,000 to-morrow instead of on Thursday. The bond purchase will also be made to-morrow. The sub-Treasury to-day paid out $95,000 in gold on account of the September interest, and lower prices are anticipated. Governments dull and lower in sympathy with gold; the decline to-day has ranged from ⅛ to ⅜ per cent. Stocks have been strong, with the Union Pacific, Pacific Mail, Northwestern and New York Central as the features. Some of the bears were trying to cover their shorts, but there were so few stocks offering that prices advanced at every attempt they made to buy. The bulls are not inclined to sell at anything like the present prices. Money plenty at 2@3 per cent. State bonds on second call were strong and active, especially for Missouri, new South Carolina and Tennessee.

Sterling exchange, 108⅞.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, August 22, 1871.

ASHES—Common Soda ash, 4@4¼; refined, 4¼@4½; Pearls, 9; Pots, 7¾; Nitrate Soda, 4½.

BROOM CORN—Is quiet but with only a moderate stock and limited receipts, the market is steady and prices fully maintained, 5@7 cts as to quality.

BUTTER—There is a steady demand for prime and the supply of this particular kind is not equal to present requirements; prices, however, are not quotably higher, 18@20 cts. The lower grades continue very dull.

BEESWAX—Quoted at 33@35c.

CEMENT—Louisville, $2,50@3,00 per bbl. Rosendale, $4,00@4,50; Calcined Plaster, $4,25 @4,50.

CORN MEAL—The demand continues light and almost wholly of a retail character, and we continue to quote at 80@85 per busnel.

CHEESE—Is reported steady but unchanged; prime Ohio Goshen, 10@10½; Factory, 9@9½; Dairy, 8@8½.

CARBON OIL—Is still quoted at 22½@23 for standard brands, in a jobbing way.

COUNTRY BACON—Is very dull though the stock in this market is pretty well reduced. Country Lard is still quoted at 8@8½.

EGGS—The market continues quiet, and, notwithstanding, the receipts are comparatively light the supply is fully up to the demand; strictly fresh may be quoted at 11@12—we can report a sale for Philadelphia at the outside figure. The stock of eggs in this market at present is smaller than it has been th s summer, though it is not likely that there will be much if any improvement until towards the middle of next month.

FRUITS—There is rather more inquiry for Apples but there is no improvement in prices, $1@2 for common to prime and $2,25@2,50 for choice. Peaches, the supply was unusually light to-day and prices 25@50 cts per box higher—we now quote $1,50@2,25 per box. Plums slow but unchanged, $2,75@3,50 per box according to quality and condition. Grapes dull at 6@8 cts per lb. Pears $3@4 per bbl. There is little or nothing doing in foreign fruits.

FLOUR—Is a shade firmer under the influence of the advices from the west but there is no advance in prices, and there is no improvement in the demand, as the present flurry in wheat in Chicago is regarded with suspicion and is likely to be of short duration. We continue to quote good spring extras at $6,50@6.62; choice bakers flour at $6,75@6,85; and good to choice winter wheat at $6,50@6,75. We clip the following from the Chicago *Tribune* of Monday: At the Millers' Association meeting, held yesterday, it was stated that the rate charged for carrying a barrel of flour from this city to Buffalo is 45c, while only 22c is charged for carrying 216 lbs of wheat the same distance, making a discrimination of 23c per bbl against the Western miller on equal weights. It was also stated that flour is brought from Minnesota to Chicago at 20c per bbl, while the charge on wheat is 15c per bu. The millers of this city are thus cut at both ends, as it is much cheaper to manufacture flour either East or West than in this city. The millers of Milwaukee labor under the same burden.

GRAIN—The offerings of Wheat continue meagre, and, with considerable inquiry, the market is firmer though there is no quotable change in prices, $1,20@1,23 for new red and $1,28@1,30 for old. The sharp advance in Chicago within the past few days is owing almost entirely to a bull movement, as the shorts are apprehensive of a corner at the close of the month, and some of them have been buying to cover. However, there is no call for Chicago Wheat in this market, nor has there been for several years, and the advance there, in consequence, is not calculated to have any influence here. Oats continue weak and flat, and, if anything, prices are lower; we now quote at 40 buying and 43@44 selling—sale 1 car at 43. Some dealers regard Oats as good as gold at present prices, but, at the same time, for some reason or other, they are not disposed to put much money in them. Corn is dull, though not quotably lower; 62@63 for mixed shelled and 65@66 for prime yellow shelled. Ear Corn is scarce and there is some inquiry on the part of consumers. Rye is quotable at 70@73, with continued light receipts. Barley is very quiet here, though firmer in the west; No. 1 Spring, in the absence of sales, may be quoted at 80@85. It is thought that some of the brewers will commence to buy next month.

GROCERIES—The most noticeable feature to notice in the grocery trade is a stronger Sugar market—raws are considerably firmer, while refineds are higher; it took the whole trade by surprise, as it was almost wholly unexpected, and the indications are that it will be of short duration. Coffees, steady but unchanged. Syrups and Molasses, dull. Rice is steady at quotations.

COFFEE—Fancy Rio, 20; Prime, 19; Good, 18; Fair, 17; Roasting, 16@16½.

SYRUPS AND DRIPS—White Honey, 70; Havemyer & Elders, 70; Silver Drips, 60; other grades, 45@55.

SUGARS—Choice New Orleans, 11¼; prime, 11 good, 10¾; fully fair, 10½; Porto Rico Sugars, 10@11; Cuba, 10@11; Demarara, 11 @12.

REFINED SUGARS—Hard Sugars, 14; A Coffee, 13; "B," 12¾; Extra C, 12¼; C, yellow, 12⅛.

MOLASSES—New Orleans, choice, 70; prime, 68; good, 65.

RICE—Choice Carolina, 10; prime, 9¼ cts; good, 9c.

SPICES—Grain Pepper, 22c. Pimento, 17c. Cloves, 20c. Cassia, 55c.

HONEY—We can report sales in a regular way at 25@30 cts per lb, for fair to choice.

HIDES—Green Salted, 10¼@11¼; Green Butcher's, 8; Dry Flint, 21@22; Green Calf Skins, 14@15; Green Salted Calf, 17@18.

HUSKS—Quoted at 2½@2¾ cts.

HAY—Wagon hay sold in Allegheny to-day at $20@33 per ton, according to quality and condition. Baled is still quotable at $22@26.

HEMP—Quoted at $165 per ton.

LIME—Perrysburg white, $2,00@2.25 per bbl; Cleveland $2.25; Eastern, $1.75.

MILL FEED—Is quoted steady, in a jobbing way, at $21@22 per ton for Bran; $33@35 for Middlings and $40@43 for Oil Meal.

ONIONS—There is considerable inquiry and this market is almost bare; may be quoted at $3@4 per bbl.

OIL—No. 1 Lard Oil, (Pittsburgh make) 70@72 to the trade, and 75 in a small way. No. 2 quoted at 58@60.

PEA NUTS—Quoted at 11 cts.

POULTRY—Young Chickens quoted at 50@60 cts per pair and old ones at 70@75.

POTATOES—No stock in hands of commission men. Sweet Potatoes $4@5 for Maryland and $6@7 for Jerseys.

PROVISIONS—Plain shoulders 6¾@7; sugar cured shoulders, 10; Breakfast Bacon, 12@12½; clear sides, 9¾@10; ribbed sides, 8½@8¾; sugar cured Hams, 14½@15½. Dried Beef, 18; Lard, 10@10½ in tcs; 11@11½ in kegs; 12@12½ in buckets. Mess Pork, $14.

RAGS—Sales, 4@4¼ cts per lb.

SEEDS—Clover Seed is quiet and nominal at $7.00@7,50. Timothy Seed is weak and can not be quoted above $3.50@3.75, in a jobbing way. Flaxseed, unchanged at $1,80.

SUMAC—Sales Tennessee Sumac at 4½ cts.

WILLOWS—Quoted firm at 10 cts.

WATER MELONS—Sales at from $10 to $25 per 100, according to quality and size.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY August 22, 1871.

The oil market continues very dull and weak and the improvement established las week has been almost lost; the inquiry for refined has almost wholly subsided and prices are weak and lower, and this, of course, has weakened the crude market. So far as we could learn there was not a single sale effected in this market to-day, of either crude or refined.

Private and reliable advices from Cleveland report the oil business as being in a very unsatisfactory condition there; it is said to be worse than it has been for several years, and some of the largest refining establishments, it is said, if there is not a radical change in the situation, will soon be obliged to shut down. The Clevelanders, we understand, allege that Pittsburgh has numerous advantages over them this year, the most important of which is in the matter of freights. Heretofore, had cheaper freights than Pittsburgh, but it is now alleged that the tables have been turned the other way. The stock of oil in Cleveland at the present time is estimated in round numbers at seventy thousand barrels, including both crude and refined.

We have no shipments of refined to report to-day, which is owing to the scarcity of cars. There is plenty of it ready and waiting, and, as soon as cars can be obtained, the shipments will no doubt be as large as ever.

CRUDE.

There is so little doing in Pittsburgh deliveries that it is difficult to give quotations. Parker was quoted nominally, for immediate shipment, at $4,55@4,57; there was an offer to sell 5,000 bbls seller all year at $4,40.

REFINED.

Weak, and, if anything, a shade lower. August, 23¾; September, 24¼; October, 24¼@24⅜; September and October, together, 24⅜.

This Hair Restorer, unlike all others, is Purely Vegetable, and entirely devoid of all deleterious Drugs. It is not a DYE, but will RESTORE Gray Hair to its original color. It acts as a TONIC, and restores the natural secretions. All druggists and dealers sell it. Price, 75 cents. Dr. SWAYNE & SON, 330 N. Sixth street, Phila., exclusive agents for the U. S.

Sold by McCLARRAN & McKENNAN, Druggists. 85 Market st. and opp. P. O. jy21 MWF

☞ JOB MOSES' SIR JAMES CLARKE'S FEMALE PILLS.—These invaluable Pills are unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. They moderate all excess and remove all obstructions from whatever cause, and although very powerful, contain nothing hurtful to the constitution. In all cases of Nervous and Spinal Affections, Pains in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, they will effect a cure when all other means have failed. The circulars around each package give full directions and advice, or will be sent free to all writing for them, sealed from observation.

SPECIAL NOTICE.—*It is the fate of every valuable medicine to be COUNTERFEITED. Job Moses' Sir James Clarke's Female Pills are extensively COUNTERFEITED. The genuine have the name of "JOB MOSES" on each package. All others are worthless. Dishonest Druggists endeavor to sell the counterfeits to make greater profits.*

N. B.—In all cases where the GENUINE cannot be obtained, One Dollar enclosed to the Sole Proprietor, JOB MOSES, 18 Cortland street, New York, will insure a bottle of the genuine, containing Fifty Pills, by return mail, *securely sealed* from any knowledge of its contents. jy3:v17:d&T

☞ PITTSBURGH HOMŒPATHIC MEDICAL INSTITUTE, 264 PENN ST.—DR. AUGUSTUS SLEE, long and well-known as the acting physician and manager of Dr. William Butler Whittier's business of this city, takes this opportunity to inform the public and his patients that he has opened the above Institute for the treatment and cure of all special and nervous diseases. A most successful practice for eighteen years is sufficient guarantee in the future. Very special attention given to Spermatorrhœa or Nervous Debility, which is permanently cured. The effect of mercury eradicated. Long standing constitutional diseases skilfully treated and cured. The Doctor gives particular attention to female complaints. Send for the Doctor's pamphlet, a treatment in plain language, on venereal diseases; sent by mail for two stamps. All old patients who desire to consult the Doctor are requested to call, as no further charge will be made for consultation, which is always free at the office. au8:x73

J. B. CANFIELD.

RIVER NEWS.

The river is about stationary at this point with 16 inches in the channel. Weather clear and pleasant and the pospects for a rise are as remote as ever.

We are pleased to learn that Capt. A. B. Bunting, of Wellsville, was married at that place last week.

We learn from St. Louis that Com. W. J. Kountz has purchased the 4th interest of Capt. Geo. D Moore, in the Mollie Moore, for $9,000.

A telegram to Robt Finney, Secretary of Fureka Insurance Co., yesterday reports the sinking of the Fontenelle, in the Missouri river. The dispatch says that she is near the shore in 12 feet of water, but she is not likely to prove a total loss.

The Fontenelle was built at Brownsville and fitted out here under the superintendence of Captain William Connelly, for J. S. Shaw, of St. Charles, Mo, and registered in the Custom House, Pittsburgh, April 26th, 1870 and insured for $18,000 in the following offices: Peoples, 2,500; Western, 2,000; Eureka, 3,000; Bootmans, 3,000; Allegheny, 2,500; Pittsburgh, 2,500; Monongahela, 2,500.

—The Secretary of the Treasury has issued a circular to collectors of customs and inspectors of steam vessels, relative to the promulgation of the act of Congress relative to steam vessels, and the rules and regulations adopted by the board of Supervising Inspectors, in which he says:

The department takes occasion to enjoin upon collectors and inspectors the importance of requiring prompt and strict compliance with all the provisions of the new act of Congress and the rules and regulations now to be promulgated upon the part of all concerned, the said act and rules now being in full force and effect. Attention is also invited to section 50 of the act of July 28, 1870, requiring every steamer carrying passengers to be supplied with at least two copies of that act, and the necessity of early supplying such steamers therewith. Supervising Inspectors are directed to issue such instructions to their respective local boards as they may deem necessary to insure the prompt enforcement of the provisions of the new steamboat law, and the rules and regulations adopted in accordance therewith.

A circular has also been issued to supervising and local inspectors of steam vessels, announcing that the department is now supplying local inspectors with bound copies of blank certificates for masters, mates, and engineers of inferior grades, and proper instructions are given concerning the new series of licenses thereto.

—The New Orleans *Republican* of Friday says: We went over to Algiers yesterday, and paid a visit to the steamers Robert E. Lee and Natchez, now undergoing dockage and repairs at the yards of the Vallette Dry Dock Company. The former has just been let off the docks, and is being thoroughly overhauled, and undergoing extensive repairs. She is having new guards, decks wheelhouse, cylinder and boiler timbers, and, in fact, will be as good as new when finished. Her repairs, Captain Cannon informed us, would not cost less than $28,000. The Natchez is now in the dock, and is being thoroughly overhauled and caulked in her hull, and will undergo other repairs, and will be put in complete and perfect order for the fall campaign.

—The St. Louis *Republican* of Sunday says: From present appearances it seems that reports speak correctly, in saying that Capt. Kountz will start a line of his own between here and New Orleans. He has already commenced by loading the Mollie Moore as an independent packet, to leave Tuesday. The general opinion among river men is that it won't work. Time will tell. The Carrie V. Kountz on her arrival here will also load independent.

—Colonel Merrill, engineer of the Ohio river improvements, was in Marietta last Thursday, and in company with Mayor Wheeler went up to the head of the island, examined the new dam, which he approved and accepted. The improvement is a very substantial one.

—The sheds and other designated property of the Alton & St. Louis packet company, at Alton, were sold on the 16th, by the city collector, for taxes and costs due the city of Alton. Captain John A. Bruner, of the steamer Illinois, was the purchaser.

—The report on the Westfield disaster has been submitted to the Secretary of the Treasury. It recommends the forfeiture of the engineer's (Robinson's) license, and that hereafter the captains of steamers be made wholly responsible.

—The little 8 by 10 side-wheel steamer Maysville got away from the marshal at Maysville some days since, and reached Aurora, when the marshal, with the Champion No. 7, overhauled her and took her back to Maysville.

—The St. Louis *Democrat* says: It is probable that the Carrie V. Kountz will make the James Howard pay damages for her getting aground assisting the latter boat off. A law suit may yet come out of it.

—The C. H. Durfee broke her shaft and run through herself, the latter part of last week, shortly after leaving New Orleans, and returned for repairs, having re-shipped her freight.

—Pilots Jim and Clem Matheny have perfected their lights on the Grand Chain, and boats now pass that difficult point with comparative ease and safety.

—The Missouri *Republican*, of Sunday says: The towboat Robb will be sold by the United States Marshall next Tuesday, under execution against the owners.

—Captain J. B. Leavitt is building a side-wheel steamer, at the mouth of Big Sandy, on the Elk river, to ply between Charleston and the mouth of Big Sandy.

—The Sam Clark has laid up at Cincinnati waiting for more water. She has a tow of nine barges loaded with 8,000 empty oil barrels.

—The Laura No. 2 has taken the place of the New State in the Wheeling and Parkersburg trade, the latter boat having broken her shaft.

—It is reported that the Carrie V. Kountz received $600 per day while at work releasing the James Howard.

—The Sam Roberts left Cincinnati for Pittsburgh Saturday with a tow of 12 empty barges.

HOME NEWS.

Runaway.—The horses attached to a wagon belonging to Mellor & Hoene ran off on Penn avenue, on Monday evening. There were three men beside the driver in the wagon, all of whom were thrown out, and one, Jacob Georgi, run over and seriously injured. He was carried to his home, and received medical attendance.

Petition in Bankruptcy.—Yesterday in the U.S. Circuit Court, a petition in bankruptcy was filed by Messrs. Benedick, Hall & Co., of New York, against Oliver Dodds, Lock Haven, Clinton county, Pa. The usual papers were issued requiring the defendants to make answer why they should not be declared involuntary bankrupts.

Pennsylvania Bible Society.—The Pennsylvania Bible Society, in its sixty-third annual report, gives the total receipts during the past year as $30,113 24. It has distributed 107,274 volumes in eighteen different languages, and in raised letters for the blind. Since its organization in 1818, this society has issued 2,-342,951 volumes of bibles and testaments.

Stock Sales.—The following stocks were sold last evening, by A. McIlwaine, auctioneer, at his stock sales rooms, 106 Smithfield street.

Third National Bank	$137 25
Third National Bank	137 00
Bank of Pittsburgh	74 25
Bank of Pittsburgh	74 00
Allegheny Suspension Bridge	54 00
Hand Street Bridge	55 00
Monongahela Navigation Co.	53 50

A Failure.

We are informed that a personal application was made to Governor Geary for the pardon of ex-Commissioners McGee and Neely, and that petitions quite numerously signed were submitted to him in support of the application. The effort was unsuccessful, the Governor refusing to consider the matter. The attempt will not be relinquished, however, as a gentleman left for Harrisburg this morning for the purpose of exerting his influence to induce that Executive to grant the pardon.

Wants His Watch.

Abraham Waller was the possessor of a gold watch and chain valued at one hundred and eighty dollars. He hasn't it in his possession now. He yesterday filed an affidavit in the Court of Common Pleas through his attorney, setting forth that he had given the watch and chain to De Roy & Bro. for repairs, on the 15th of last June, and since that had been unable to get it back, although he had made repeated efforts. He therefore appeals to the Court, and a summons was issued requiring De Roy & Bro. to appear and explain.

The Suke's Run Nuisances.

Health Officer Crosby Grey brought about fifty of the inhabitants of the Sixth ward, whose premises adjoin the unhealthy locality of Suke's Run, before Ald. Floyd yesterday morning, and had several of them fined for maintaining nuisances in the shape of pig-pens and slaughter houses. Officers McFadden and Merlatt testified to the filthy condition, and Dr. Daley as to the effects on the health of the neighborhood. A fine of three dollars was imposed in each case. The informations and fines will continue until there is some improvement noted.

More of Them.

Still they come. Yesterday there were two more added to the list. Jacob Pford feels himself aggrieved by slanderous utterances made by Jonathan Hecket, although he does not specify what they were, and asks the court to rectify matters. A summons was issued and the case will be disposed of at the next term.

The wishes of Fred Bier were also acceded to and a summons issued yesterday, calling on Jacob Miller to appear and explain certain slanderous words used in derogation to Mr. Bier's character. He will have an opportunity to explain at the next term.

Painful Fall.

About seven o'clock Monday evening Mr. G. L. Ryder met with a severe accident at P. Duff & Son's warehouse, No. 124 Second avenue. Mr. Ryder is a brother-in-law of Mr. Kitzmiller, a member of the firm, and was with him in the warehouse at the time. He was in the second story, and stepped on what he thought was the platform of the elevator, but it was only a shadow cast over the opening which in reality was not covered. He fell a distance of about twelve feet, and was very much bruised, though no bones were broken. Doctors Fleming and Wishart were called, and rendered him medical attention.

Temperance Meeting.

The regular weekly meeting of the Young Men's Christian Temperance Society was held last evening in their hall in Duquesne Way. Robert Carr, Esq., President of the Society, occupied the chair.

After the usual devotional exercises and reading of the minutes of the previous meeting, Rev. E. K. Squier D.D., was introduced and proceeded to deliver an exceedingly able and eloquent address. He was listened to throughout with evident interest.

G. W. Bradley, Esq., followed in a brief and earnest address, after which the meeting adjourned.

Extensive Fire.

At an early hour Monday morning a fire broke out in one of the tenement houses at the coal works of Dravo & Co., Monongahela City. Before the flames could be stayed, nine tenement houses belonging to Messrs. Dravo & Co., one belonging to Mr. A. Culbertson, with a large stack of straw and all the buildings connected with his house, and about one hundred and fifty feet of the coal track of Dravo & Co. were completely destroyed. The total loss will amount to about six thousand dollars, there being no insurance on the property. The work of repairing the railroad will be commenced at once, and will probably be completed within ten days or two weeks.

Defective Commitment.

Application was made yesterday morning in Court for the discharge from custody of Samuel Dougherty, who had been committed to jail for trial, on a charge of aggravated assault and battery, by Deputy Mayor Nichols, in default of five hundred dollars. The plea was entered that the commitment was defective. A hearing was had before Judge Stowe, who, after taking some evidence in the case, decided that the commitment was defective, but further stated that he would himself commit the accused for trial at Court, in default of five hundred dollars bail. Thus the point with reference to the defective commitment was gained, but nothing further.

Sanitary on the South Side.

A Sanitary Committee was organized in Birmingham yesterday morning, with a view to reform the sanitary condition of the borough. The borough was divided into six sub-districts, and one representative was appointed for each district. The citizens are requested to report the existence of any nuisances to the Committee-man of their respective district, and they will be reported to the whole Committee, and measures adopted for abating them. The Committee are going to work energetically and will doubtless accomplish a vast amount of good. At the meeting a report from the leading physicians was presented which was to the effect that the small-pox is abating.

Revenue Seizure.

Yesterday morning District Attorney Swoope filed a libel on seven barrels of whisky owned by Samuel Thompson. Collector T. W. Davis made the information upon which this action was taken. The whisky had been placed in barrels which had been stamped once, but had been altered, the barrels filled up, and then sold without the fluid having being inspected or gauged, and the barrels re-stamped.

The information also contains two charges against Thompson, the one setting forth that he did business as a wholesale liquor dealer in the years 1869–70, and also as a rectifier, without in either instance paying the special tax. A warrant for the arrest of the accused was issued.

Distressing Accident.

About nine o'clock yesterday morning a little boy from Butler county, named Moore, met with a painful accident at Bellevue. Moore was attempting to mount a wagon heavily laden with stone, which was passing along the road at Bellevue, when he missed his footing and fell, the wheels of the vehicle passing over his right knee, crushing it in a terrible manner. The little sufferer was at once conveyed to a house in the neighborhood, where Dr. M. H. Frank soon arrived in response to a summons, and after examining the limb, concluded that amputation was necessary. The operation was performed, and the boy is now as comfortable as possible under the painful circumstances.

Outrageous Assault.

Thomas Grogan, alias Crommans, was on yesterday charged before Alderman Shore for cutting Joseph Casey during a fight on the previous evening. He was arrested and taken to the Alderman's office for a hearing. While going up Wylie street on the way to the office, in charge of two officers, Grogan saw Patrick Cunningham standing on the sidewalk. He asked permission to speak to him, and the officers released their grasp. In an instant he jumped out into the street, and picking up a lump of coal, hurled it at Cunningham. The missile struck Cunningham on the head, and felled him to the ground, inflicting a serous wound at the same time. Another information was made against Grogan and a commitment lodged against him. He seems to be a most dangerous character.

Row Among the Coopers.

Monday evening a fight occurred at Lutz's mill on Third street, Allegheny, which at one time threatened to assume serious proportions. A large number of coopers are now on a strike. In some of the shops men have not only refused to join in the strike but they have continued at work. Monday evening about six o'clock some of the strikers visited Lutz's cooperage on Third avenue, with the avowed intention of whipping the men who refused to join them in the movement. When the workmen emerged from the building the "strikers" assaulted them, and a lively fight ensued. Bruised heads and black eyes were quite plenty after the melee. The strikers finally withdrew from the contest, taking their wounded with them. Yesterday morning the assaulted parties appeared before Alderman Boister, and lodged informations against several of the assailants. Warrants were issued, but at a late hour no arrests had been made.

THE CUMBERLAND VISITORS.

Their Arrival in the City—Who They Are—The Programme Yesterday.

The delegation of visitors representing the business interests of Cumberland, Maryland, arrived in the city yesterday morning, on time, by the Cincinnati express. They started from their home about daybreak in three special cars which had been provided for their accomodation and attached to the train by direction of President Hughart, who, though prevented from taking charge of the excursionists personally, made every arrangement for their comfort, and detailed efficient lieutenants to carry out his designs. The trip over was without special interest, and shortly before twelve o'clock the excursionists came into the depot at Grant street. In accordance with their frequently expressed wishes, no reception was accorded them, and the party numbering about seventy persons, under the pilotage of Mayor Piatt found rest, refreshment and a stopping place at the Monongahela House. From the following list perhaps some idea of the personality of the visitors may be obtained, and the department of business they respectively represent.

Wm. Piatt, Mayor city of Cumberland; J. B. H. Campbell, druggist; J. C. Orrick, commission merchant; H. Hebb, gentleman; A. M. L. Bush, tobacconist; N. Beall, capitalist; J. J. Hoblitzell, contractor; J. E. Porter, Geo. W. McCullough, wealthy capitalist; Aden Clary, merchant; Richard Beall, house carpenter; Jno. Butler, President academy; L. M. Shepherd, dry goods merchant; W. H. Shepherd, dry goods merchant; H. Lefever, druggist; Elijah Fuller, Register of Wills; H. M. Fuller, Register's clerk; John Humbird, contractor; John M. Buchanan, Chief Judge of Orphan's Court; John Coulehan, Associate Judge; A. W. Sminner, marble cutter; W. R. Beall, grocer; Rev. Chas. Deamar; O. C. Gephart, retired merchant; G. F. Gephart, foundryman; S. J. Edwards, shoe dealer; F. W. Shryer, druggist; N. C. Read, grocer; J. J. Bruce, lumberman; D. C. Bruce, Farmer; J. S. Johnson, Insurance; M. St. Clair; A. Speer; General Thomas I McKaig, Attorney; M. McKaig, Attorney; A. Beall McKaig, Attorney; C. W. Brengle, shoe dealer; J. H. Earlaugher, dry goods merchant; Jesse Korus, lumberman; R. J. Morris, confectioner; Jacob Brengle, merchant; Harry Swartzwelder, brick manufacturer; John E. Boch, artists' materials; Henry Shriver, druggist; Wm. Hall, gent; S. Luman, St. Nicholas Hotel; James Sheridan; M. M. Kearney, grocer; J. E. Russell, coach manufacturer; Thomas Johnston; F. M. Granlich, dry goods; Casper Glass, grocer; S. F. McBride, grocer; F. Miuke, shoe dealer; J. H. Ways & Son, confectioner; H. Hart, grocer; C. F. Hetzel, grocer; Jos. Soneborn, dry goods; P. Hamill, ex-M. C., now private gentleman; H. Ressly, Clerk Circuit Court; Thos. Verner; Wm. Walsh; attorney; A. Chamberlain, proprietor Mountain City *Times*; E. L. Malti; M. Coleman; Ed. L. Moore, President Second National Bank; Matthew Carrigan, Merchant.

After dinner, they separated into small exploring parties, each of which, according to inclination, sought out such department of business as was deemed most interesting. This occupied the afternoon, during which some of our principal manufactories were visited, together with mercantile houses and other places of interest. They propose to continue this programme to-day, and expect by Thursday morning to be ready to return home. Thus far, they express themselves as highly pleased with the trip, and gratified at the cordial manner in which they have everywhere been received.

ALLEGHENY BOARD OF HEALTH.

Adjourned Meeting Last Night—New Disinfectant Examined—Public Proclamation Regarding the Spread of Small Pox Read, Adopted and Ordered to be Printed—Excellent Resolutions—Nuisances Reported.

An adjourned meeting of the Allegheny Board of Health was held last evening at their rooms in the city building.

In the absence of Mr. Arrott, Mr. Williams was requested to act as Secretary.

The minutes of the previous meeting were read and approved.

Before proceeding with the transaction of any business, a young man, an agent for a new disinfectant was introduced to the Board by Mr. Williams. The young man then proceeded to show to the gentlemen present, the advantage of his patent disinfectant over all others. He requested the Board to pass a resolution recommending its use to the citizens. A sample of the article was left for the Board. No action was taken.

Mr. Barker requested that the Committee on Rules be continued, as they had not yet concluded their report.

Mr. Barker, from the Committee on Proclamation, reported that the committee could not legally recommend any particular point where the garbage, &c. of the city could be thrown.

Mr. Hanna moved that the garbage and filth be thrown into the river at any point whatever. Carried, after a lengthy discussion.

The proclamation, regarding the spread of small-pox, prepared by the Committee was read and adopted.

Mr. Jones moved that 1000 copies of the proclamation be printed, for posting. Carried, and the health officer instruced to have them posted in conspicuous places.

Mr. Barker offered a resolution requesting the physicians in the city to report all deaths in the city, with the cause of death, within twenty-four hours after death transpires, at the office of the Board. Adopted.

Mr. Barker moved that one thousand blank certificates for the use of the physicians be prepared. Carried. He also introduced a resolution prohibiting the using of carriages used by the public, for the convenance of the bodies of persons who had died from small-pox, or any other contagious disease. The resolution was passed.

Mr. Barker moved that the form of blanks used in Philadelphia by the Board of Health, for entering complaints of nuisances, be adopted. Carried.

The Health Officer reported that several beds which had been used by small-pox patients had been emptied into Voegtly's lot. He was instructed to order the owner of the lot to have the nuisances removed.

Mr. Barker moved that a Committee on Ordinance, be appointed. Carried, and Messrs. Hanna, Bulford, and Jones were appointed.

On motion adjourned.

THE RED MEN.

Election of Grand Officers for the United States.

The Red Men continued their deliberations with closed doors yesterday. A large number of delegates were in attendance, many having arrived since our last report. The day was principally devoted to the consideration of reports showing the Order throughout the country to be in a prosperous condition and daily becoming stronger.

At the afternoon session the election for officers was held, when the following "children of the forest" were chosen:

High Grand Powhattan, Fred. Schmidt, Pittsburgh.
Lower Grand Chief, John Linn, Brooklyn.
Assistant Grand Chief, William Knoeller, Louisville, Ky.
Grand Priest, Heinrich Siemon, New York City.
Grand Secretary, John Christian Seeger, Philadelphia, Pa.
Grand Treasurer, Jacob Rudolph, Baltimore, Md.
Grand Marshal, Christian Kreamer, Baltimore, Md.
Grand Herald, Fr., Hessner, Louisville, Ky.
Grand Warrior, Conrad Bosmann, Cincinnati, Ohio.
G. Tent Warden, Chris, Preisendanz, Philadelphia.
G. W. W. Fr., Frommer, Pittsburg.
G. G. W., John Schneider, Trenton, N. J.

After the election an adjournment took place. The "Red Men" expect to finish business to-day, and to-morrow a grand ball will wind up all the ceremonies.

LEG CRUSHED.

Man Run Over by the Cars at Wood's Run.

On Monday evening, Thomas Pritchard, a puddler employed in the works of Messrs. Lewis, Oliver & Phillips, and residing at Wood's Run, had his leg so seriously injured that amputation was necessary. He and some fellow workmen were on their way home from the mill, and were walking along the railway track. Near Superior Station they observed a train approaching them, and they had barely time to step to the other track. They had proceeded only a few steps when a down train on the track where they were walking approached them unawares. Mr. Pritchard was knocked down and the locomotive passed over his left leg, crushing the foot and ankle terribly. His companions fortunately escaped injury. Mr. P. was removed to the Marine Hospital, where his injuries were attended to by Drs. E. N. and D. W. Riggs and Dr. Cunningham. Amputation was found necessary, and the operation was performed by the physicians named. The injured man is doing as well as could be expected.

—Pritchard has since died. Last evening Coroner West held an inquest upon the remains when a verdict of "accidental death" was rendered.

GRANT.

Probability of His Visiting Pittsburgh.

Some time ago the Lincoln Club of this city met and passed a resolution inviting President Grant to stop over in this city on his way west, he contemplating a visit beyond Chicago. In response to that invitation forwarded by the Secretary of the Club, C. L. Magee, Esq., the following response was received yesterday from Gen. Porter, the President's private secretary, addressed to Henry Lloyd, Esq., President of the Lincoln Club:

LONG BRANCH, N. J.,
August 19, 1871.

DEAR SIR:—I am directed by the President to acknowledge the receipt of your letter of the 7th inst., and to convey to you and the members of the "Lincoln Club," his thanks for your very cordial invitation to accept of your hospitalities while passing through Pittsburgh on his visit west. He will reach Pittsburgh about the 12th or 15th of September, but is not yet able to decide whether he can stop long enough to accept your kind invitation.

Very truly yours,
HORACE PORTER, Secretary.

Mr. Henry Lloyd, President Lincoln Club, Pittsburgh, Pa.

ACCIDENT AT BRADDOCKS.

Caught Between Bumpers—A Young Man Seriously Injured.

Monday afternoon, Jacob Weaver, in the employ of the Pittsburgh, Washington and Baltimore Railroad Company, met with a very severe accident, at Braddock's field, from which the most serious consequences are apprehended. He was engaged in coupling two cars of a freight train, when, by some mistake, the car attached to the locomotive was backed too soon, and he was caught between it and another on the same track, and severely crushed. When picked up there were no external evidences of injury, but he was suffering terribly and complained of internal pain. He was taken to his residence in the upper part of the borough, and medical aid summoned immediately, but notwithstanding every exertion, his pain seemed not to be relieved for several hours. It was found that he has been injured severely internally, and but little hopes were entertained of his recovery until yesterday afternoon, when he manifested evidences of improvement. Weaver is a young man, married, but without a family.

A General Make-Up.—Thomas Jackson was on yesterday arrested by Officer McGrady in Fifth avenue. At the time of the arrest he wore a coat belonging to Dr. King, carried an umbrella belonging to Dr. Wiser, and had on shoes and pants, the property of other parties. He was taken to the lock-up.

New lot of German Canary Birds, just received at JOHN R. & A. MURDOCH'S, Smithfield street, opposite the Postoffice.

At 6 1-4c.

Prints.

An immense stock, new styles at
McKEE, MURPHY & Co.'s.

BREVITIES.

ON THE FLY—the dust.

YESTERDAY was a warm day.

LOVELY weather for camp meetings.

GOOD HUNTING up the Connellsville Railroad.

THE story of Gen. McCook's insanity proves to be a canard.

GEN. SWEITZER was not at the Red Mens' pic nic on Monday.

WASHINGTON AVENUE, Allegheny, sewer has been completed.

THE Central Hotel, under its present management, is a success.

AMATEUR base ball club of Kittanning play the Enterprise, at Union Park, on Friday.

SHREWD business men will see the propriety of seeing to the wants of our Cumberland visitors.

CAPT. DALGLIESH'S claims for the City Treasurership are ably presented in a communication in another column.

HARVEST HOME began at Saxonburg yesterday, and is expected to be a grand feast of good things and a flow of beer.

PITTSBURGHERS were arriving in Saxonburg yesterday by scores, to participate in the amusements of that ancient place.

MEETING Thursday evening at Millvale school house in the interest of the Lawrenceville and Evergreen Hamlet Railway.

WE regret to state that Dr. J. H. McClelland was yesterday thrown from his buggy and quite severely bruised. Fortunately no bones were broken.

NEW CASTLE has now four railroads to think about prospectively, as follows: The New Castle and Franklin, Baltimore and Ohio, New York and Chicago Air Line, and the Butler Road.

ALDERMAN MCMASTERS departs to-day for a pleasure trip to Canada. He will carry with him the best wishes of his friends in this city. The popular Alderman will be absent for about two weeks.

BERTHA FALLER, the insane woman noticed yesterday, was sent to Dixmont by the Allegheny poor authorities. No further developments have been made in regard to her statement that she has been poisoned.

WE bespeak the attention of our readers to the card of Professor Thompson's Institute in to-day's paper. The Professor needs no recommendations from us, as he is known so well as one of our best educators.

WE are pleased to note the appointment of Officer George Garrison as day-captain of the watch, in place of Captain Orton, dismissed. There is no better officer on the force than Mr. Garrison, and the appointment is a most worthy one in him.

JOHN J. O'LEARY, of the Allegheny Valley Railroad, is rusticating at Chautauqua Lake. Johnny has made many friends among the patrons of the Valley road, by his uniform courtesy and obliging manners. We wish him a pleasant time.

AS this is the time of the year owners of property should have their chimneys cleaned preparatory to the winter, we refer them to the card of John Gillespie on our first page. Mr. Gillespie understands his business thoroughly in all its branches.

THE sub-committee on markets met yesterday afternoon at the office of Major Negley. Nothing definite in regard to the settlement for extras in Mr. Malone's bill was arrived at, and the probabilities are that the matter will have to be finally settled in court.

A SELECT pic nic will be given at McFarland's grove on September 2d, for the benefit of Drum Corps No. 67, a new organization lately organized in one of outer wards. Dancing to good music with plenty to eat will be the order of the day. Tickets 75 cents.

THE Mercer *Dispatch* says there has been great activity among the coal land lessors in that section for a month past, as a result of which a great amount of the most valuable mineral land, both southeast and southwest of Mercer, has been secured for future speculation.

COMPANY A, Washington Infantry, will go on a target excursion next Friday, the 25th inst., up the Connellsville Railroad to McKeesport. The train will leave at half-past one o'clock. The handsome prize medal which belonged to the company before the war will be contested for.

AT a meeting yesterday morning of the Directors of the Third ward (Allegheny) Public Schools, it was decided to open the schools at the usual time, but as a precautionary measure, no pupil will be admitted who comes there from a family or building in which there is small pox.

NIGHT before last an attempt was made to rifle the safe belonging to the railroad company, and located in their depot at Butler. The thieves effected an entrance to the building by boring through the window shutters, then by removing the fastening. They accomplished nothing except spoiling the safe-lock.

WE regret greatly to announce that William P. Jones, Esq., is now lying dangerously ill at his residence in Sewickley Valley. He was stricken with apoplexy just after returning home from the city, where he had been during the forenoon, apparently in good health and attending to business as usual. The attack fell upon him without the slightest warning. Drs. Dickson, Woods, McCready and Murray are attending him, and faint hopes are entertained for his recovery. Mr. Jones is an old and highly esteemed citizen, and large numbers of warm friends hope anxiously for his recovery.

PITTSBURGH ENTERPRISE.

Joint Stock Company to be Formed for the Purchase of Timber Lands in West Virginia.

It will interest such of our readers as have had their attention called to the tracts of timber lands in West Virginia, wanting but that some enterprising parties should purchase them and enter into the business of manufacturing lumber, as well as the many friends of the gentleman named below, to read the following article from the Parkersburg *Times*:

The Pennsylvanians mentioned in our issue of the 12th inst. as having come from Pittsburgh to look after timber land in Wirt county, returned yesterday, and expressed themselves as pleased with their trip up the Kanawha. After having visited considerable portions of Wirt and Calhoun counties, they now go home to report favorably to a joint stock company, chartered by the Legislature of West Virginia, to purchase from 2,700 to 3,700 acres of land, part in Wirt and part in Calhoun county; also the large saw and planing mill, situated at Elizabeth, for the purpose of entering extensively into manufacturing lumber in all its branches. One of the parties made an offer for an extensive improved farm near Elizabeth, for the purpose of making it a fruit and nursery farm, believing the soil and climate to be admirably adapted for that purpose. The company having his enterprise in view, have the means and energy to make it a success. Believing with us that the slackwater navigation, which will soon be completed, must open up the vast fields of timber lying in this valley, hitherto undeveloped, comprising oak, poplar and yellow pine, unsurpassed in quality, together with the usual amount of other hard woods.

The following gentlemen comprised this party of enterprising Pennsylvanians:

Mr. Thomas Harper, of the firm of Harper, Gutman & Co.

Mr. H. Bockstoce, of the firm of H. Bockstoce & Co.

Mr. Graham Scott, a brother of our esteemed physician Dr. I. Scott.

Mr. Conrad Berringer, in the real estate business.

The first three, in company with Col. W. McCoy, the energetic pioneer of Wirt county, called at our office and assured us that if West Virginians will embrace the opportunity offered to them for the settlement of enterprising men in our State, they can secure a valuable addition to their population, composed of men of energy who will labor to open up a market to the vast teritory of lumber and timber in the interior counties of the State.

"MUSIC IN THE PARK."

A Temperance Syndicate Furnish the Park Commission with Funds for Music on Saturday—Assurances that Their Laudable Action will be Repeated for Several Weeks to Come.

It is with genuine pleasure that we record the fact that arrangements have been made to have music in the Allegheny Parks on Saturday evening. A Syndicate of temperance men, doubtless appreciating the fact that such attractions would be of more aid in preventing young men from spending their evenings and their week's wages in the dram-shops than a score of temperance lectures, have, as will be seen from the annexed correspondence, placed in the hands of the Park Commission a check for the requisite sum to furnish one concert, and with this have given the assurance that for several weeks to come the generous action will be repeated.

The following is a transcript of the correspondence between the Syndicate and the Commission:

PITTSBURGH, August 21, 1871.
To the Secretary of the Park Commission:

DEAR SIR: On behalf of the Syndicate of *Temperance men* I enclose you a check for eighty dollars to provide for music in the Park next Saturday evening.

A check for the same amount will be handed to you next week and for several weeks to come.

Yours, respectfully,
[Sig.] ANTHONY M. COCHRANE.

ALLEGHENY, August 21, 1871.

Received from ****, check for eighty dollars the same being a contribution by them for music in the Park.

[Sig.] J. R. OXLEY,
Secretary Park Commission.

The following letter of acknowledgement was forwarded by the Secretary of the Commission:

OFFICE OF THE PARK COMMISSION,
CITY OF ALLEGHENY,
AUGUST 21, 1870.

A. M. COCHRANE, ESQ.—Sir: Your note, with check for $80, to provide for music in the Park, on Saturday evening, August 26th, has been received and is hereby acknowledged. I am authorized, on behalf of the Park Commission, to accept your tender, and say to you that the Great Western Band has been engaged, and will perform, weather permitting, next Saturday evening, on West Park, in the vicinity of the Lake, commencing at 6 P. M. Thanking you sincerely for your liberality, I remain, on behalf of the Park Commission,

Yours truly, J. R. OXLEY,
Secretary Park Commission.

THE WISNER MURDER.

The Prisoner Not Yet Examined—Trouble About Witnesses.

From the Titusville *Herald* of yesterday we extract the following additional particulars, concerning the arrest of Charles Gross, who is now confined in the lock-up there, on a charge of murdering Wisner.

"The excitement over the arrest of Charles Gross, charged with murdering James Wisner, continues unabated, especially among the German population. The party who was sent to Buffalo to procure witnesses for the purpose of proving an *alibi* returned last evening, without having accomplished his object. He states, however, that the witnesses are there, but are unwilling to come here without compensation. The hearing was consequently postponed to secure their attendance. Justice Strouse or another competent person goes to Buffalo to-day to collect such evidence, as will be valuable in the case and bring the witnesses back with him.

The prisoner is still confined to the lock-up, and is suffering from sickness and disorder brought on by the nauseating and unwholesome atmosphere of that receptacle. His wife arrived in town yesterday, and states that neither she nor her husband, to her knowledge, ever knew, or saw the unfortunate Wisner. She corroborates every particular mentioned by her husband as to the time of his departure last January for Buffalo. Messrs. Kraffert, Meising and other German citizens say that no money will be spared to give the prisoner a fair and impartial hearing, and to procure what evidence can be had in his defence, as they are morally certain of his innocence. Messrs. Sherman and McAllister, the counsel whom they retained for his defence, feel unwilling to allow the hearing to proceed until the necessary witnesses can be summoned, and the counsel for the prosecution are disposed to give them ample time to do so. The case will probably be heard on Thursday or Friday.

A RURAL SENSATION.

A Good Deacon in Trouble—Charged With Dealing in Liquor—His Explanation.

The religious community in one of our rural districts on the North Side has been considerably exercised the past few days over a grave charge which has been brought against one of its most prominent representatives, a deacon in the U. P. Church, and a man heretofore without a blemish upon his reputation. The trouble which befell the Deacon and necessitated his appearance in the city before the United States officers, Monday afternoon, was brought about by a young man who had formerly been a brother with him in the church. The charge, which is somewhat brief in the legal information, and which is made by the young man, is to the effect that he has been guilty of selling liquor without paying the special tax to the Government. The allegations are more general than special, but in one instance the prosecutor is explicit, he, according to his statement, having been the purchaser.

The officers with the necessary legal authority called at the Deacon's residence Monday morning and he returned to the city with them that evening about midnight, having in the meantime procured bail in the sum $1,500 for a hearing. Through the courtesy of the officers he avoided a night in prison, as he was taken by them to the residence of Clerk McCandless in the Eighteenth ward, and that gentleman being aroused from his slumbers, accepted the bail tendered. The Deacon returned, comparatively happy, to comfortable hotel accommodations.

The accused is quite emphatic in his denial of the crime alleged against him, and says the whole proceeding is a piece of spite work. His story is that some time ago the young man—his accuser—was taken sick and said the physician had ordered liquor as a stimulant. Knowing the Deacon to have a good article of domestic manufacture in his possession, the patient procured a quart of it and afterward paid for it. Subsequently the young man was expelled from the church, the Deacon taking an active part in getting him out of the fold, and the rejected brother makes the information upon which his former friend was arrested. This is the Deacon's side of the story, which he asserts he will be abundantly able to prove, as well as disprove the direct charge against himself.

The accused stands high in the community in which he lives, and in the city as well. He is reported to be very wealthy and has always been held in the church and out of it, in the highest esteem. The officers say he had no difficulty in procuring bail, and apparently could have given security for a hundred times the amount. He is greatly vexed at the plot against him, as he styles it, and is preparing for a vigorous defence. The hearing will be had in a few days, and we withhold the names until then. In the meantime the gossips are luxuriating over the sweet morsel which has thus been afforded to them.

POLICE NOTES.

Brief Mention of Criminalities Yesterday.

Twenty-three cases at the Mayor's morning court.

Deputy Mayor Irwin disposed of four common cases in the usual manner.

Sarah Clarke indulged in too much fire-water, became very drunk, and, as a consequence, quite disorderly, and was sent up for thirty days.

Samuel Ford was arrested for disorderly conduct on Ohio street, and in default of $25 fine was committed to the work-house for sixty days.

Deputy Mayor Irwin fined Jacob Eichby fifty dollars and costs, and in default sent him up sixty days for drunkenness and disorderly conduct at a Sabbath School pic-nic.

Peter Loftus, distinguished in the walks of vagrancy, was before Mayor Brush, and was sent for ninety days to the work-house.

A boy named Hoffman, charged his brother before 'Squire Ammon, of East Birmingham, with drunkenness. A warrant was issued.

Andrew Rich, was by Alderman Thomas committed for a hearing on Friday next.

Levis Hoffman made oath before 'Squire Ammon that his father, Frantz Hoffman, has been drunk for the past ten days, and has, during that time, repeatedly abused his mother. A warrant was issued.

A boy, name unknown, is in the lock-up awaiting transfer to the refuge. He appears to be a hardened young case and refuses to give his name.

Alderman Koenig committed Frederick Merriman to jail for Court, in default of $200 bail.

A man who acted disorderly at the Union Planing Mills, South Pittsburgh, was fined $15 and costs by Justice Baker.

Mary Bradrock charged Mrs. Miller, before Alderman Donaldson with disorderly conduct. Warrant issued.

Alderman Koenig issued a warrant for the arrest of Constantine Jordan on a charge of assault and battery preferred by Frederick Breuneke.

Before the same Alderman, Lorenz Bender was charged with a similar offense by Anna Necke. Warrant issued.

Young Whalen, the boy confederate of Haslett and Small, was committed to jail for a hearing a week from this date. The fugitives have not yet been heard from.

A young man was thrown out of ten-pin alley on Sixth street because he would not pay the sum of twenty-five cents for two games. The police picked him up, and we have no doubt that his game in the mayor's office will cost him more (in a fine) than if he had paid for his game on Sixth street.

A STRANGE woman left her baby at Adam Bepler's Hotel, Diamond, Allegheny, on Monday and went out ostensibly for her trunk, since which time she has not been heard of.

Henry Welsh, a boy of youthful appearance, threw a ball through the window of Fred Jacobs' saloon on Fourth avenue, for which he was arrested and taken to the lock-up.

Wm. Mason was very drunk, and was therefore put into the calaboose. He had on his person a valuable gold watch and $112 45 in money, which would likely have "gone where the woodbine," etc., if he had not been arrested.

Alderman O'Donnel has cross suits docketed at his office, arising out of a quarrel terminating in a rough and tumble fight between two rag pickers named respectively Mrs. Wooly and Mrs. Ellen Dumfrey. A warrant has been issued for each, on a charge of assault and battery.

Before Alderman Neeper, Harry Warren charged Harry Zeigler with larceny as bailee of a pair of pants. Arrested and held for a hearing.

Assault and battery is the charge brought before Alderman Neeper by Mollie Collins against Walter McMichaels. The ungallant Michael is alleged to have struck his fair opponent, knocking her down and abusing her after she was in that position. The defendant was arrested and held for a hearing.

THE MAYORALTY CONTEST.

A Chance to Win or Lose $1,000—Who Speaks First!

The following we take from the *Dispatch* of yesterday: The Mayorality contest is being pushed with vigor and persistency unprecedented in local politics, and whether we regard the amount of work being done by the candidates and their friends, or the "stamps" being circulated in their interest, it must be conceded that no such spirited or expensive campaign of the character has ever before taken place in Pittsburgh. Saturday was a busy day with the candidates, and the Sabbath, even, found some of them circulating among the people of the outer wards where, the police being less strict or observant perhaps than in the older districts they were enabled, over their wine and lager, to discuss the probabilities of the coming event and "lay the ropes" for the primaries, on the result of which so much depends. Yesterday the Red Mens' picnic afforded the candidates a rich field for operations, and that they worked it in the most industrious manner, those who saw the "swarthy sons of the forest" in procession or joined in their festivities at Iron City Park need not be told. Nearly all the candidates were in attendance, and what between "button holing," hand shaking, treating and retreating, they had a lively, if not an expensive, time of it. But notwithstanding all this hard work and apparent "fixing of things" on the part of the candidates, the most careful inquiry fails to satisfy us that there is any great change in the aspect of the canvass from what it presented when last we had occasion to refer to the subject. Dr. Gross still holds a "winning hand," and it is daily becoming more evident that nothing short of the "worst kind of play" can lose him the game. The Germans are for him almost to a man. With our mechanics and working men he stands well, while among our business men and manufacturers he has evidently more strength than any two of the other candidates put together. That this is the opinion entertained by those best competent to judge, may in a measure be gathered from the fact that a gentleman called on us last evening and authorized us to wager $1,000, on his account, *that Dr. Gross will receive the nomination*. The gentleman who makes this offer is no betting man. Neither is he what might be termed a politician, but having heard a great deal of "blowing" abroad regarding Morgan's strength, and feeling satisfied that it is resorted to more for effect than from any hopes his friends have that he will get the nomination, he offers this wager as well to test the sincerity of their fanfaronade as to show his confidence in the Doctor's certainty of victory. Here is a chance for the Morganites "or any other man" to make or lose $1,000! Who wants it? Don't all speak at once!

SANITARY.

Pest House—A Suggestion.

PITTSBURGH, August 22, 1871.

EDITORS GAZETTE: As your frequent articles on sanitary matters proves the GAZETTE to be a good channel of communication with the people, permit the writer to indulge in a few remarks with reference to the same subject, and also to express his abhorrence of the *coward* who would suggest a locality for a pest house at anybody's door far enough from his own. You will perceive, in the proceedings of a meeting of the Board of Health, held on the 2d inst., a suggestion from one of its members that the Point would be an excellent place for a pest house. *So it would*, and so it has been for the last five years. Without doubt we only wish the gentleman could enjoy its perfume, as it is gently wafted up the Allegheny river for at least two months—July and August—of one summer. He would certainly conclude that we had as much as was good for our health. But how absurd to talk of erecting a hospital for small pox patients at the Point, unless on the principle that one poison will neutralize another, and of this there is hardly a doubt, as, contrary to all that has been written, no cholera nor epidemic disease has visited the Point, although it is the filthiest pest house in our city or any other. But would it relieve the apprehensions of the timid to know that the breezes were wafting the very much dreaded vapours past their dwellings? Now, we have a suggestion to make, and give it for what it is worth, believing that it would be wise and philanthropic, namely: to purchase Bruno's Island, near this city, erect thereon a hospital for small pox and cholera patients or any other, beautify the grounds, so that in times of general health it would be an admirable pleasure resort. Patients could be transported by water with more comfort than in any other manner, and the hospital could have a regular physician. A small steamboat could be hired very economically to carry all needed supplies as well as patients, and this island could be purchased for a reasonable amount, would always be increasing in value, could be made at a moderate outlay a beautiful resort, and no one could object to the location—being entirely surrounded by water; and as we are loaded already with taxes this might be undertaken and accomplished by those of ample means and benevolent hearts, who are looking for their reward in the kingdom of heaven.

POINTED.

O. N. A.

Try Frazier's California Herb Bitters. s

Have you tried that luxurious addition to a good shave, the Universal Atomizer? If not drop in to-day and place yourself in charge of one of the efficient corps of barbers at Lysles and Scroggings, Diamond saloon No. 64 Diamond Allegheny. There you will find what a really good shave is.

A PHYSICIAN IN QUOD.

Another Phase in the Braddock's Horse-stealing.

In yesterday's GAZETTE we mentioned the fact that a valuable mare, had been stolen on the 28th of July, from the pasture at Braddock's, belonging to James Plummer, Esq., and that she had yesterday been recovered from the stables of McTigh and Shaffer. Also, that Mr. McTigh had been held to bail in the sum of $500. Mr. Shaffer, McTigh's partner, alleges that he purchased the mare from Dr. Meredith, of Wilkinsburg. Mr. S. was absent at the time of the arrest, but as soon as he returned started in search of the Doctor. He found him and persuaded him to come to the city. They went to the Alderman's office and here Meredith made an information charging some man whose name we can neither spell nor pronounce, with the theft. He alleged that the accused owed him a bill for professional services, amounting to $140, for which he took the mare. This was on the 29th of July, the morning after the robbery. The same day he generously disposed of the animal, which is valued at $1000, to Mr. Shaffer for $125, a loss of $15—rather suspicious looking. The Alderman dispatched two of his officers in company with Mr. Shaffer and the Doctor in search of the accused but no such person could be found or heard of; probaby the man is a myth. The party returned to the city and Mr. Shaffer immediately made an information against the Doctor for the robbery. He was accordingly arrested and in default of $1000 bail committed for trial.

POLITICAL.

City Treasurer.

MESSRS. EDITORS.—While conversing with several gentlemen who support what the *Leader* calls the "ring candidate" for City Treasurer, they assure me with wise and knowing shakes of the head that Captain Dalgliesh, the soldier candidate, has no show for the nomination. They all admit, (or at least all that I have talked to), that he is very deserving of the office; that he is entirely competent to fulfill the duties of the office; that he sustained a really enviable military record as a volunteer during the war, and that he is a gentleman, polite and obliging to all who have business with him. Now, giving these gentlemen credit for as much honesty as the average politicians, I do not think that they believe what they assert. I think it is done to make people believe that they must vote for their pet, or throw away their votes. The friends of Captain Dalgliesh are confident that he has better prospects for success than any other of the candidates in the field, notwithstanding this weak invention of the enemy. I have talked to a great many on the subject, because, believing Dalgliesh to be the best person to fill the office, I am anxious to see him nominated; but I have not heard one man say he is unfit in any respect for the position. Granted then his ability, I hope that the loyal Republicans of our goodly city will not overlook this gallant soldier to vote for one of those who preferred to remain safe at home during all our long years of imminent danger. If they do they will certainly act inconsistent with their previous professions and actions. Captain Dalgliesh, nor his friends, need not be deceived nor disheartened by the cry of "no show," for we can successfully sustain him at the primaries, and we ask the assistance of *all* who think we are in the right.

C. F. L.

FASHION NOTES.

The Latest Styles.

HIGH COIFFEURS are in vogue once more.

YELLOW SILK sun-shades are the latest novelty.

BRASS-TIPPED HEELS are pronounced vulgar, common and rowdy.

WHITE lace bonnets with fine aigrettes are worn for riding by ladies.

GILT BRAID is no longer in vogue for trimming—save among ebony ladies.

LARGE guilt and enamel combs for the back hair have come in fashion again.

A NEW style of watch chain is ornamented with small acorns with enamel top.

SOME of the tortoise shell ornaments are so light as to be almost cream-colored.

BLACK lace is more used for trimming on dresses than anything else this season.

A NEW style of ear-ring is the shape of large tamborines, from which hang small coral balls.

BLACK and white is the most fashionable contrast in dresses, cloaks, bonnets and parasols this season.

DRESSES of black crepe de chine, looped over rich black silks, takes the place of grenadines, and are very much more elegant and dressy.

THE most stylish way of trimming the round English turban hats is a large ostrich feather twisted round the crown, and a wing at the side.

LARGE circular capes of crimson cloth trimmed with white and gold embroidery, with large hood attached, are very much worn by ladies at the sea shore.

DRESSES are being worn less *decollete*. It is doubtless fortunate that such a change has taken place, as the lowest limits had evidently been reached, and the mind recoils with horror from all surmises as to the results had the disgusting fashion been persisted in.

MUSLIN dresses are more expensive for summer wear than silks, as they have to be washed frequently, now that the fashion is to wear them long, and a laundress thinks nothing of charging from $6 to $8 for "doing up" one of the beflounced and beruffled morning dresses which are so becoming and so pretty.

HOPS are no longer in fashion. They have passed out of social existence with croquet and sensible walking costumes. The time has been, and that not very far away, when the gaities of any watering place would not be considered perfect without the weekly or semi-weekly evening "hop," which all attended, attired in their stunnings of evening costumes.

Tarentum Camp Ground.

The Annual Meeting of the Board of Trustees of this famous ground, took place yesterday, Mr. Jacob H. Walter, President, presiding, and Mr. W. Freeman, acting as temporary Secretary. The reports showed that important and expensive improvements had been made on the grounds, prominent among which, was the erection of a large and elegant pulpit structure, capacious enough to seat fifty ministers. The awning extending from the pulpit, over a good portion of the seating, had also been enlarged, road leading to the ground graded, and other marked improvements. Besides the outlay of the Board, quite a number of two story frame houses had been erected by lot owners. At one point, a row of six or eight two story frames have been erected, at a cost each of one hundred and fifty dollars. Close by is the cozy home of the President, our ex-Prothonotary and of others, whose names we did not learn.

The Board occupied much of the afternoon in closing up the business of the year and preparing for next season. A committee was appointed to examine plans for building a number of cottages next season. It is possible that, in addition to the erection of a number of cottages by lot holders, the Board may build a dozen for rent or sale. It is in contemplation to arrange the different springs on the ground to carry the water to a reservoir, and from thence furnish the water by pipes to the tent holders. In view of these improvements, quite a number of families are already arranging to spend a portion of the warm weather on the ground before and after camp meeting. The trustees also are considering the propriety of building a house for a person to take care of the property all the year round.

The election of officers for the ensuing year took place at the close of the business, and Mr. Jacob H. Walter was elected President; Gen. A. Anderson, Vice President; William Freeman, Secretary, and John G. Matthews, Treasurer.

Much praise is awarded to Mr. Joseph H. Nobbs, for his services in arranging the ground and other matters pertaining to the comfort of lot holders.

Marseilles Quilts.

One case Reversible, both sides alike, double width, at $3, extra bargain at
McKEE, MURPHY & CO.'s.

Where They Come Frome.

The number of particularly fine and stylish suits worn by gentlemen of this city the present summer is quite noticable, and as the subject of frequent remark. The question, therefore often arises as to the whereabouts these same suits may be obtained. The almost universal response to the interrogatory is to the effect that the wearer obtained the garments which have excited so much admiration, of the celebrated Hespenhide & Co., No. 50 Sixth street. The proprietors of this establishment have "a few more of the same sort of cloths" left, which they are closing out at greatly reduced prices.

Big Stock of New Goods

And everything way down in the prices at
McKEE, MURPHY & CO.'s.

At Auction.—Tobacco, Segars, Show Cases, Counters, Shelving, Platform, Scales, Clock, Desk, Signs and Lease of one of the best stocked and fitted stores in the city, No. 45 Ninth (late Hand) street, on Friday next, commencing at 10 o'clock; also, a very fine assortment of Household Furniture. For further particulars of this very attractive sale, enquire on the premises, or of N. Whiting & Co., Auctioneers.

THROWN FROM A BUGGY.

A Young Man Seriously Injured—A Young Lady Narrowly Escapes.

Last night shortly before twelve o'clock, Mr. John Cummings, of Brunot Island, accompanied by a lady, was returning in a buggy from a pic nic on the South Side. As they came opposite Woods' mill in Monongahela borough, the horse frightened at the light and became unmanageable. The animal started off on a gallop and had gone but a short distance when the occupants of the buggy were thrown out with great violence. The workmen in the vicinity at once ran to their assistance, and found that the young lady had escaped miraculously with a few slight bruises. Her companion however, was insensible, and evidently was very seriously injured. Word of the accident was brought to a city physician, who went over to render medical assistance. The young man's injuries were found to be internal chiefly, and it is feared he will die. He was removed to a neighboring house where he subsequently revived, but at present it is impossible to say what the result will be.

The buggy was wrecked, but the horse escaped injury, and was caught some distance from the scene of the accident.

THE STATE.

THE Republican primary meetings in Lancaster county are to be held on Saturday, the 29th inst.

THE Republican primary elections are to be held in Union county on next Saturday, the 26th inst.

THE Republican primary meetings in Clarion county are to be held on Saturday, the 2d of September.

THE Republican primary or delegate elections, will be held in Adams county, on Saturday, the 26th inst.

THE Union City (Pa.) *Times* of August 17th says that strawberries are selling for five cents a quart. Queer, for this time of the year.

THE Hanover *Spectator* says that the wife of George Frederick, residing in that place, gave birth to a female child last week, which weighs but a trifle over a *pound-and-a-half!* Mr. Frederick weighs over 200 pounds!

THE Lewisburg *Chronicle* says: On Wednesday evening the lumber company's planing mill in Bloomsburg was struck by lightning and destroyed. Three dwellings and two or three stables were also burned. Loss about $75,000.

THE Warren *Mail* says: We never saw the Allegheny river so low as now. Oil wells and cisterns are nearly all dry. All crops are suffering for want of rain. The weather is the hottest of the season. The thermometer indicated 95 degrees in the shade last Tuesday and Wednesday.

THE Mercer *Dispatch* says: The harvest is about over, and the summary shows an abundance of everything. The late crops, such as corn, potatoes, &c., promise to be more than ordinarily good. Fruits are also quite plentiful, the only kind below the average being apples, and of them, even, there is a fair crop. The chronic grumblers will have trouble to find something to growl about this time, sure.

THE Cambria *Herald* says: Mr. P. W. Pringle, who resides near Ramsy's ridge, on the line of Cambria and Indiana counties, informs us that about two weeks ago, two young men, while engaged in getting out stave timber for him, suddenly came upon a den of rattlesnakes, some 25 or 30 in number. They immediately set to work and succeeded in killing 7 of the reptiles before they were compelled to leave the "scene of battle." Mr. P. says that 27 have been killed in his neighborhood during the present summer, and it isn't a good year for snakes, either.

THE Lawrence *Journal* says: The subscription paper of the New Castle & Franklin R. R. is auspiciously enlarging and exceeding, even beyond the sanguine expectations of its best friends. On Monday evening, of this week, we had the curiosity to investigate the matter a little, and discovered ten feet of a subscription list, containing three hundred names, and amounting to $135,000, which far exceeds the amount expected to be raised in this immediate locality. A canvass of the country districts has not yet been commenced, but judging from the interest manifested in the enterprise by our citizens it is quite certain that the country people will do their share. The early completion of the road is now a foregone conclusion.

THE Tioga County *Agitator* says: As R. F. Wilson, with his wife and three children, was returning from a visit at Seager's mill on Sunday evening last, in a two horse wagon, the strap broke in descending a hill, letting the wagon run on to the team, which immediately became unmanageable. Mr. Wilson jumped out of the wagon, with a child in his arms, which he dropped on the ground unhurt, and tried to catch the team by the bit. He had succeeded in this, when he was struck on the leg by some portion of the rig, knocked to the ground, and, before he could rise, the mad horses had dashed the wagon against a stump, and the thing was over. Mrs. Wilson was pitched violently on the ground, with a child in her arms, and instantly killed. The child escaped injury. Another child received some bad bruises, and Mr. Wilson had his leg badly cut and bruised.

THE Bedford *Inquirer* says: Last Saturday Messrs. Isaac Wentz and Isaac Corl, of Pavia, Union township, this county, very unexpectedly embarked in the snake trade, and for a short time drove a first-class wholesale business. They were engaged at work on Mr. Wentz's premises, and disturbing the slumbers of a huge rattle-snake, received the usual warning. Upon looking around, they found the reptile ready for battle. It took but a moment to dispatch him, but our friends learned that this one was only the advanced guard of a regular den, for, a short distance in front of them, five snake heads protruded from a hollow log. As they approached the snake fort, the defendants drew in, but kept up a terrible rattling. The next thing in order was to split the log. This accomplished, there was revealed to our heroes a crawling, yellowish-brown colored, horny, jointed mass of snakes—and now the fun began. One by one their snakeships fell before the well directed clubs, until the number slain amounted to thirty-nine, and, with the one previously killed, forty. Of the thirty-nine in the log, six were old ones and thirty-three young ones, varying in length from fifteen to twenty inches. The truth of this story, snaky as it appears, is vouched for by very reliable parties. There were snakes enough in that one log for a Democratic mass meeting.

THE GRATEFUL AND INVIGORATING influence of RANKIN'S "FERRATED ELIXIR OF BARK," adapts it particularly to persons enfeebled by sickness or exposure, the ingredients of which is is composed being the most energetic of anti-periodics. In low states of the system it will be found invaluable. Prepared by
ALFRED J. RANKIN, Apothecary,
45 Sixth street,
Under St. Clair Hotel, Pittsburgh.

DIED:

JONES—On Tuesday, August 22d, at his late residence, at Quaker Valley, WILLIAM P. JONES, in his 57th year.

Notice of funeral hereafter.

SNIVELY—On Monday, August 21st, 1871, Miss MARY SNIVELY, daughter of C. Snively, Esq.

Funeral from the residence of her father, in Penn township, TO-DAY, August 23d, at 11 o'clock A. M. Friends of the family are respectfully invited to attend. Carriages will leave Fairman & Samson's office, corner of Seventh avenue and Smithfield street, at 8 o'clock.

SHOLES—On Monday evening, August 21st, at 5½ o'clock, JAMES AVERY, youngest son of James and the late Mary B. Sholes, aged 5 years, 8 months and 17 days.

The funeral will take place from the residence of his father, No. 13 Knoll street, Allegheny, TO-DAY, August 23, at 10 o'clock A. M. The friends of the family are respectfully invited to attend.

GREDE—On Thursday, August 22, 1871, at 10 A. M., ANNA MARTHA, wife of Phil. Grede, at the age of 45.

The funeral will take place on THURSDAY, August 24th, at 2½ o'clock P. M., at the late residence at Tustin street, near Soho. Friends are respectfully requested to attend.

DOLEN—On Monday, August 21, at 11:30 P.M., of inflammation of the bowels, EMILY E., youngest daughter of John and Melissa Dolen.

The friends of the family are respectfully invited to attend the funeral from the residence of the parents, 259 Bedford avenue, THIS MORNING.

BEATTY—At the residence of her son in-law, John Biddle, Union avenue, Pleasant Valley, August 22d, 1871, at 9 o'clock, Mrs. ELIZABETH, wife of John Beatty, late of the 11th ward, Pittsburgh.

Notice of funeral to-morrow

ALEXANDER AIKEN, Undertaker, No. 166 FOURTH AVENUE. Coffins of all kinds, Shrouds, Crape, Gloves, and every description of Funeral Furnishing Goods furnished. Agent for Raymond & Co.'s Patent Metallic Burial Cases. Rooms open day and night. Hearse and Carriages furnished.

THE RIVERS.

CINCINNATI, August 22.—River four feet six inches; falling. Four boats are aground four miles above the city.

LITTLE ROCK, August 22.—Clear and warm. River fell four inches; ten inches below on the bars. Departed—Celeste, Memphis.

LOUISVILLE, August 22.—River stationary; twelve inches in the chute; five feet scant on Portland Bar; four and a half feet reported on Grassy Flats; two feet at French island. Business very dull. The wharf receipts for the two weeks ending Saturday were $884.

CAIRO, August 22.—Mary Alice, New Orleans to St. Louis, 9 P. M.; Belfast, St. Louis to New Orleans, 8 A. M.; Legal Tender, Memphis to Paducah, 8; Baker, Cairo to Cape Gerardeau, 9; Burksville, Clarksville packet, 3 P. M. River fell two inches. Clear. Mercury 88.

EVANSVILLE, August 22.—Clear and hot; mercury 92. River risen three inches. Port list: down—Ella Hughes, 3 A. M.; S. L. Turner, 2:30 P. M.; Charmer and Florence Lee, 6. Up—Rapidan No. 2, 7 A. M.; Arkansas Belle, 8; Fayette 8. Business active.

VICKSBURG, August 22.—Down: Ouachita Belle, 5 P. M.; Susie Silver, 3 P. M.; Atlantic and barges, 6 P. M.; W. S. Pike, 7 P. M. Up: Tom Jasper; 2 A. M.; City of Alton, 10 A. M.; Bismarck, 10 P. M. River falling. Weather warm and clear.

NEW ORLEANS, August 22.—Captain Douglass of the pilot boat Cornelia, who boarded the bark Norton here, for St. Johns, N. B., reports the death of Captain Eoslow, of the Norton, on the 20th inst., twenty-five miles out from the south west pass. He was buried at sea.

NEW ORLEANS, August 22.—Arrived—Henry Ames, City of Quincy, John T. Moore, from St. Louis. Departed—Labarge last night for St. Louis; H. C. Yeager for St. Louis to-day.

ST. LOUIS, August 22.—Arrived—P. P. Walt and Grand Tower, Memphis; Clarksville, Louisville; Ninney, White river; Falls Pilot, Cairo; Lucy Bertram and Northwestern, Keokuk; Rubicon, New Orleans; Marble City, Vicksburg; Joseph, Upper Mississippi; Nile, Cambridge. Departed—Kellogg and barges, Cairo; M. J. Wicks, New Orleans; Mountaineer, Kansas City; Julia, Vicksburg; Lucy Bertram, Keokuk.

MEMPHIS, August 22.—Weather clear and pleasant. River stationary. Departed—Sallie, Arkansas River; Mary E. Poe, Red River; Commonwealth, New Orleans. Arrived—Colorado, St. Louis.

ADDITIONAL MARKETS.

Live Stock.

WATERTOWN, August 22.—Beef cattle: receipts 1,087; supply nearly equal to last week, with no improvement in the prices; sales of choice at $9 75@10.00; first quality $8@8.50; second $7.00@7.50; third $5.00@6.75. Sheep and lambs: receipts 12,157; supply large; market active; sales in lots of 525 each. Veal calves $5.00@12.00.

BUFFALO, August 22.—Cattle market dull and heavy, owing to large receipts and a lowering tendency in eastern market; prices have fallen off ⅛ to ¼c since the close of last week; the market will probably go still lower; a rally may be looked for during the fall season when prices will be higher than ever; receipts this week, 327 cars; same time last week, 268; quality of the offerings, from medium to fair; sales of 183, averaging 1,122 lbs. $4.50@5.12½. Sheep; no transactions; prospects fair; receipts in seventy-two hours, ten cars western. Hogs fairly active; prices firmer; offerings all taken; receipts in seventy-two hours, 68 cars, of which 53 went through first hands; sales of 1,421, averaging 198½ lbs., $5.00@5.25.

Cotton Markets.

SAVANNAH, August 22—Middlings, 17½c; sales yesterday 150 bales; receipts to-day 82; stock 3,540.

SOMETHING NEW!
For Everybody.

A Useful, Easy, and Money-making Employment for All, Old and Young, Male and Female.

From $5 to $100 per month can easily be made by any person of ordinary capacity in our NEW, USEFUL and HIGHLY LUCRATIVE OCCUPATION. No capital is required to engage in this business. *It will in no way interfere with other business.* It requires no traveling or peddling, but gives the comforts of home and *good wages*. This is no Recipe or Agency, Gift Enterprise or Lottery Swindle, but is an *honorable, lawful* business, and cannot be too highly recommended to all persons who desire a *permanent, money-making*, and genteel employment. No person will ever regret sending for this information, let their business be what it may. *We guarantee satisfaction in every case.* The information we offer, when once gained, can be brought into use at any time during life without extra expense, and made a source of constant income; every one should secure this information at once, while there is an opportunity, as the cost is trifling. There is positively *no humbug or deception* in our statements; we would not make false statements to the public, for our reputation is at stake, and there is nothing gained in the end by deceit. During our connection with this business we are not aware of a single case in which any one of our numerous customers has found reason to accuse us of any other course than that we have *invariably* pursued—that of fair, upright and honorable dealing. That all may *know* that our statements are true, we make the following offer: To any person who, after receiving the information, shall find that we have misrepresented the business, we will send Ten Dollars for their trouble. We will upon receipt of Five Dollars by mail, send by return of mail, full instructions in regard to the business. All orders to insure prompt attention must be accompanied by the cash. *All money forwarded by mail in carefully sealed letters at our risk.* Address
B. F. GARDINER & CO.,
PORTLAND, ME.
P. O. Box 1105 au17:v33

WILTBERGER'S
Flavoring Extracts,

Are warranted equal to any made. They are prepared from the *fruits*, and will be found *much better* than many of the *Extracts* that are sold.

Ask your Grocer or Druggist for Wiltberger's Extracts.

BARLOW'S INDIGO BLUE

Is, without doubt, the *best article* in the market for *bluing clothes*. It will color more water than *four times* the same weight of indigo, and much more than any other *wash blue* in the market. The *only genuine* is that put up at
ALFRED WILTBERGER'S DRUG STORE,
No. 233 North Second street, Philadelphia, Pa.
The Labels have both WILTBERGER'S and BARLOW'S name on them. *All others are counterfeit.*
For sale by most Grocers and Druggists.

AUCTION SALES.

RECEIVERS' SALE.

By virtue of an order of the Court of Common Pleas of Allegheny county, made July 29th, 1871, the undersigned, Receivers of the co-partnership property of the firm of PAGE, ZELLERS & DUFF will sell at Public Sale, at the warehouse of the firm No. 120 Second avenue, in the City of Pittsburgh, on the

First Day of September, 1871,
AT 11 O'CLOCK A. M.,
THE FOLLOWING DESCRIBED PROPERTY,
TO-WIT:

All that certain Lot of Ground situate in the Borough of East Birmingham, bounded and described as follows, to-wit: Beginning at the northeast corner formed by the intersection of Railroad and Mary streets; thence extending in width northwardly along Railroad street one hundred and twenty feet to an alley twenty-four feet wide; thence extending eastwardly between said alley and Mary street, preserving the same width of one hundred and twenty feet, three hundred and eighty-four feet to Page street, on which is erected a Frame Window Glass House, with a ten pot furnace, with flattening and cutting houses and box shop adjoining.

Also, the lease of Warehouse No. 120 Second avenue, Pittsburgh, having three years to run from the 1st day of April, 1871, at an annual rental of $1,800, said warehouse containing the tools and fixtures complete for the manufacture of stained glass.

Also, the good-will of the business of the firm of Page, Zellers & Duff in the sale of window and stained glass.

The above described property will be sold together, or the Factory, Tools and Window Glass business, and the lease of warehouse and stained glass business, will each be sold separately on the following terms, viz.: One-third of the purchase money in hand and the balance in three equal annual instalments, with interest, payable semi-annually, the deferred payments to be secured by bond and mortgage upon the premises.

SAMUEL DUFF,
JOHN H. PAGE, Jr.,
Receivers.
PITTSBURGH, July 31, 1871. au1:x58

ORDINANCES.

AN ORDINANCE—Authorizing the Grading, Paving and Curbing of Collins avenue, Nineteenth ward, from Penn avenue to Hoeveler street.

WHEREAS, A majority in interest have petitioned for the grading, paving and curbing of Collins avenue, Nineteenth ward, under the provisions of the Penn Avenue Improvement Act; therefore,

SEC. 1. Be it ordained and enacted by the city of Pittsburgh, in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That Collins avenue, from Penn avenue to Hoeveler street, shall be graded, paved and set with curb stones, under the provisions of the Act of assembly providing for the improvement of Penn avenue and other avenues and streets in the city of Pittsburgh.

SEC. 2. That an election for five Commissioners shall be held, as provided for in said Act, at such a time and place as the officers herein appointed shall designate, of which they shall give ten days' public notice by advertising in three daily papers of the city of Pittsburgh, and by hand-bills posted in conspicuous places along the line of said Collins avenue.

SEC. 3. That D. R. Coon, Henry Richard and R. D. Beatty are hereby appointed as officers of the election herein provided for.

SEC. 4. That any ordinance or part of ordinance conflicting with the passage of this ordinance at the present time, be and the same is hereby repealed so far as the same affects this ordinance.

Ordained and enacted into a law in Councils this 14th day of August, A. D. 1871.

A. H. GROSS,
President of Select Council.
ATTEST: E. S. MORROW,
Clerk of Select Council.
H. W. OLIVER, JR.,
President of Common Council.
ATTEST: HUGH McMASTER,
Clerk of Common Council. au21

AN ORDINANCE—Authorizing the Grading, Paving and Curbing of Shady Lane, from Penn avenue to Fifth avenue.

WHEREAS, A majority in interest of the owners of property abutting on Shady Lane, from Penn avenue to Fifth avenue, have presented a petition in writing asking that the same be graded, paved and curbed under the provisions of the Act of April 2, 1870; therefore,

SEC. 1. Be it ordained and enacted by the City of Pittsburgh, in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same. That Shady Lane, from Penn avenue to Fifth avenue, shall be graded, paved and curbed under the provisions of an Act of Assembly, entitled "An Act to provide for the Improvement of Penn avenue and other avenues and streets of the City of Pittsburgh," approved April 2, 1870

SEC. 2. That an election of Five Commissioners shall be held at such time and place as the officers herein appointed shall designate; said election to be conducted in the manner directed by said Act.

SEC. 3. That George W Hailman, Frank Sellers and Alex. Bates are hereby appointed as officers of the election herein provided for, who shall give notice of the time and place of holding the same as directed by said act.

SEC. 4. That any ordinance or part of ordinance conflicting with the passage of this ordinance at the present time, be and the same is hereby repealed so far as the same affects this ordinance.

Ordained and enacted into a law in Councils, this 14th day of August, A. D. 1871.

A. H. GROSS,
President of Select Council.
Attest: E. S. MORROW,
Clerk of Select Council.
H. W. OLIVER, JR.,
President of Common Council.
Attest: HUGH McMASTER,
Clerk of Common Council. au21

AN ORDINANCE—Authorizing the opening of Roup street, from Winebiddle avenue to Rebecca street.

WHEREAS, A majority in interest has petitioned for the opening of Roup street from Winebiddle avenue to Rebecca street; therefore,

SEC. 1. Be it ordained and enacted by the City of Pittsburgh, in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That the City Engineer be and is hereby authorized and directed to survey and open Roup street, from Winebiddle avenue to Rebecca street, to a width of 50 feet, taking off the ground of H. J. Lynch, Esq., ten feet at Winebiddle avenue, and running thence in a straight line to meet the extension of said Roup street, as now laid out east of Rebecca street; the damages caused thereby and the benefits to pay the same to be assessed and collected in accordance with the provisions of an Act of Assembly, entitled "An Act concerning streets and Sewers in the City of Pittsburgh," approved January 6th, 1864, and the several supplements thereto.

SEC. 2. That any ordinance or part of ordinance conflicting with the passage of this ordinance at the present time, be, and the same is hereby, repealed so far as the same affects this ordinance.

Ordained and enacted into a law, in Councils, this 14th day of August, A. D. 1871

A. H. GROSS,
President of Select Council.
Attest: E. S. MORROW,
Clerk of Select Council.
H. W. OLIVER, JR.,
President of Common Council.
Attest: H. McMASTER,
Clerk of Common Council. au21
